

BizRadar v4

Universal Sector Algorithm Specification

Batch 3 — Standalone Add-On

Sectors 23, 52, 53, 54 — Construction, Finance & Insurance, Real Estate, Professional Services. Phase 2 + Phase 3 implementation roster.

Read in conjunction with:

- Batch 1-2 PDF (BizRadar_v4_Universal_Algorithm_BATCH2.pdf) — Part 1 Architecture + Sectors 11/21/22/44-45/62/71/72/81 (114 pages)

This Batch 3 PDF contains 4 new sector chapters at the same depth + structure as Batches 1-2. The universal architecture, Master Router, and quality-gates content lives only in the Batch 1-2 PDF — this document assumes the reader has already read those.

BATCH 3 CONTEXT

Where Batch 3 fits

BizRadar v4 ships across 5 batches. Batch 1 delivered Part 1 (architecture, Master Router, universal scaffolding, quality gates) plus Sectors 11, 21, 22 (the heavy-industrial trio that exercises the Phase 5 specialty branch logic). Batch 2 delivered the Phase 0 + Phase 1 roster — the v3 sweet spot (Sector 72 Hospitality) plus its closest cousins (Sectors 44-45 Retail, 62 Healthcare, 71 Recreation, 81 Other Services).

Batch 3 — this document — covers the Phase 2 + Phase 3 sector roster: Construction (Phase 2 trades + commercial GC + civil/heavy), and the Phase 3 professional-services and finance trio (Real Estate, Finance & Insurance, and Professional Services + veterinary). Together these are the highest-LTV B2B-relationship sectors in the spec. Batches 4 and 5 will deliver the B2B-heavy roster (Manufacturing, Wholesale, Transportation, Admin/Waste) and the long-tail Phase 5 sectors plus Parts 3-5 (failure-rate database, implementation roadmap, appendices).

What is in this Batch 3 PDF

Chapter	Coverage
Ch. 23 — Construction	3 sub-clusters: residential trades / commercial GC / civil-heavy
Ch. 52 — Finance & Insurance	3 sub-clusters: community bank / insurance agency / RIA-wealth
Ch. 53 — Real Estate & Rental	3 sub-clusters: brokerage / property mgmt / self-storage
Ch. 54 — Professional Services	5 sub-clusters: legal / accounting / A&E; / consulting / veterinary

Reading order recommendation

Read 23.A residential trades first if you're building Phase 2 — it's the closest cousin to v3 hospitality and the biggest blue-collar B2C-appointment market. Then read 54.E veterinary — it shares 70% of its profile with healthcare.medical_practice from Batch 2. Then 53.A brokerage if you're covering the Phase 3 launch. Save 23.C civil-heavy and 52.A community bank for Phase 4-5 — they exercise the regulated B2B-procurement pattern that doesn't appear elsewhere in the spec.

Quality bar

Every sub-cluster opportunity-playbook entry contains a NAMED real-world entity — real cert bodies (NATE, GAF Master Elite, AAHA, NCARB), real software platforms (ServiceTitan, Clio, AppFolio, Procore), real federal + state programs (SBA PLP, IRA 25C, CDFI, DBE), real industry associations (AGC, NARPM, NAR, IIABA, AICPA), and real benchmark sources (NRCA, PSMJ, ENR, FDIC). Engineering teams can look up every named entity to verify it's currently operating before encoding it into the sector_profiles.js file.

CHAPTER 23 — CONSTRUCTION

Residential trades, commercial general contractors, civil/heavy infrastructure. The Phase 2 priority — biggest blue-collar opportunity outside hospitality + healthcare.

One-line truth

A residential HVAC contractor is mostly v3-shaped (B2C, reviews on Google + HomeAdvisor + Angi, neighborhood radius). A commercial GC runs a 6-12-month relationship sale to a developer and has zero Google reviews because nobody reviews their accountant either. A heavy civil contractor competes on bid bonds, prequalification, and DBE / MBE / WBE set-asides. Three radically different profiles inside one NAICS sector.

NAICS code count: 31 **Sub-clusters:** 3

construction.residential_trades — Residential trade contractors (HVAC, electrical, plumbing, roofing, landscaping, painting, handyman)

Business model	trade_to_premises
NAICS examples	238210, 238220, 238160, 238910, 238320, 238350, 561730, 444240
Modern variants	Mini-Split-Only HVAC Contractor, Heat-Pump Specialist, Solar + Battery Installer, EV-Charger Installer, Whole-Home Generator Specialist
Competitor radius	15 mi urban, 25 mi suburban, 50 mi rural service territory. HVAC + plumbing emergency calls 30-45 min response window — radius is response-time-defined, not distance. Roofing + solar can travel 60+ mi for big jobs. Specialty trades (mini-split, generator, EV charger) regional 75+ mi.

Data sources

Source	Returns	Cost	Fallback
Google Places + Reviews	Reviews + photos + hours	\$0.02	Yelp Fusion
Angi (Angie's List) + HomeAdvisor	Lead-platform reviews + ranking	Subscription	Direct scrape
Houzz Pro	Project photos + reviews + leads	Subscription	Manual
BBB	Accreditation + complaint history	Free	Direct office
NextDoor + Facebook neighborhood groups	Hyper-local word-of-mouth signal	Free	Manual scrape
State contractor licensing board	License + violation history	Free	Direct

Source	Returns	Cost	Fallback
Manufacturer pro-program directory (Carrier, Lennox, Trane, GAF)	Named pro-program affiliations	Free	Manufacturer
Energy Star / state utility rebate program	Named rebates available + qualification	Free	State utility
ServiceTitan / Housecall Pro / FieldEdge benchmarks	Industry KPI benchmarks	Subscription / public	Internal

Review categories tracked

- On-time arrival
- Diagnostic accuracy
- Pricing transparency vs estimate
- Cleanup after work
- Communication during job
- Warranty + comeback responsiveness
- Wearing booties / respect for home
- Tech / installer professionalism
- Office / dispatcher responsiveness
- Quote turnaround speed

Opportunity playbook (18 categories)

Category	Research basis	Example with named entity
Manufacturer pro-program affiliation	Named OEM dealer programs by trade	Carrier Factory Authorized Dealer / Lennox Premier Dealer / Trane Comfort Specialist — co-op marketing dollars + 10-yr parts/labor warranty access — drives 28% premium close rate
Roofing manufacturer cert (GAF Master Elite / CertainTeed SELECT ShingleMaster)	Roofing OEM certifications + benchmark	GAF Master Elite — 2% of roofers — unlocks Golden Pledge 50-yr warranty, \$0 cost to homeowner — drives 14% premium close rate vs unaffiliated competitors
Field service management (FSM) software upgrade	Named FSM platforms by trade size	ServiceTitan (\$350/seat/mo) for 10+ truck operations — captures \$48k/yr in lost-call recovery + 22% dispatch efficiency. Housecall Pro / Jobber for sub-10-truck.
Membership / maintenance plan program	HVAC + plumbing membership plan economics	\$19/mo or \$189/yr maintenance plan — 800 members = \$151k recurring + 4x repair attach + 14% conversion to replace when system dies

Category	Research basis	Example with named entity
NATE technician certification	NATE cert + premium positioning	NATE-certified technicians (only 28% of HVAC techs nationally) — used in marketing — close rate +12% on premium jobs
Energy Star + state rebate stacking	Named state utility programs + IRA tax credits	Wisconsin Focus on Energy rebates (\$300-\$1,000/system) + IRA Section 25C tax credit (\$2,000 cap heat pump) — quantified on quote, drives 18% close rate lift on premium efficient systems
Heat pump / electrification specialty positioning	IRA HEEHRA + 25C eligibility + cold-climate heat pump certs	Cold-Climate Heat Pump (NEEP-listed) installer — captures growing decarbonization market, premium \$/installation
Lead generation: Google LSA + paid	Local Service Ads + Google Guaranteed economics	Google Guaranteed badge + LSA — \$25-65 per booked lead vs \$200+ HomeAdvisor leads — captures 4-6 jobs/wk at low CAC
Reputation engine + review velocity	Named platforms (Birdeye, Podium, NiceJob, Reputation.com)	NiceJob automated text-after-job — Google rating from 4.0 to 4.7 in 6 mo + 8× monthly review count
Photo / video / before-after content engine	CompanyCam + photo-doc benchmarks	CompanyCam (\$30/seat/mo) — every job photo-documented — used in proposals + warranty claims + IG content. Drives proposal close rate +8%.
Financing partnership	Named consumer-financing partners (GreenSky, Synchrony, Wells Fargo, FTL Finance, Service Finance)	Service Finance + Synchrony — same-as-cash 18 mo + 60-mo low-APR — close rate on \$8k+ jobs from 38% to 62%
Apprenticeship + technician pipeline	Local trade school + DOL Registered Apprenticeship	DOL-Registered Apprenticeship with 2 named local technical colleges — 4 apprentices/yr, federal labor incentive (\$1,500/apprentice), solves talent shortage
Commercial / multifamily light-commercial expansion	Property mgmt + small commercial demand	Named 4 property mgmt cos. on preferred-vendor list — adds \$14k/mo recurring service revenue at higher margin than residential
Solar + battery + EV charger add-on lines	NABCEP cert + Tesla Certified Installer + ChargePoint partner	NABCEP PV Installation Professional cert + Tesla Powerwall Certified Installer — adds \$48k/yr revenue + ITC tax credit on each install drives close rate

Category	Research basis	Example with named entity
24-hr emergency service positioning	After-hours economics + on-call rotation	24-hr emergency dispatch — premium \$189 trip charge — 6 calls/wk × 52 = \$59k incremental + builds reputation as "the one to call when it breaks"
BBB Accreditation + Torch Award	BBB requirements + community trust signal	BBB Accredited Business + A+ rating — \$700/yr — 14% close rate lift on suspicious / out-of-state homeowners
Service-area neighborhood targeting	NextDoor Pro + paid local ads	NextDoor Pro neighborhood sponsorship — \$400/mo per ZIP — drives 8-14 new leads/mo at \$32 CAC
Truck wrap + uniform branding	Mobile billboard impressions + uniform cost	8-truck fleet professionally wrapped + branded uniforms — generates 200k+ daily impressions in service territory at \$14k one-time cost

Specificity rules (anti-hallucination)

- Every named manufacturer pro-program must be real (Carrier FAD, Lennox Premier, Trane TCS, Bryant Factory Authorized, GAF Master Elite, CertainTeed SELECT, Owens Corning Platinum)
- Every named cert must be real (NATE, EPA 608, EPA Lead-Safe RRP, NABCEP, OSHA 30, OSHA 10, MEP licensing per state)
- Every named software must be real (ServiceTitan, Housecall Pro, FieldEdge, Jobber, JobNimbus, CompanyCam, Buildertrend, Procore)
- Every named utility rebate program must be real and currently active in this state
- Every IRA tax credit reference must cite the actual section (25C, 25D, 30D, 45L, HEEHRA / HOMES if state-launched)
- Every benchmark must come from a real source (Service Roundtable, ACCA, MCAA, NRCA, NECA, BNI Building News)

Cost scale calibration

Residential trade contractors evaluate spend on small-business + truck-fleet bands:

Band	Spend type
1 — Under \$500	Cert application, Google Business Profile refresh, partnership outreach
2 — \$500 to \$5,000	FSM software, signage, training course, photo program
3 — \$5,000 to \$50,000	Truck wrap fleet, software stack upgrade, lead-gen campaign, tool upgrade
4 — \$50,000 to \$500,000	New truck add, warehouse / shop expansion, second crew hire
5 — Over \$500,000	New facility, fleet expansion, acquisition of competitor

Persona schema

B2C_consumer (homeowner with property-decision context)

- Name + age + home tenure + property value

- Trigger event (system died, planned replacement, renovation, new home)
- Decision style (lowest bid, highest trust, longest warranty, name recognition)
- Acquisition channel (Google, neighbor referral, HomeAdvisor, NextDoor, drive-by truck)
- Financing willingness
- Comeback / repeat-call behavior (one-and-done vs ongoing service relationship)
- LTV (avg job × repeat × referrals)

Persona example — Mike, 47, suburban homeowner — 18-yr old furnace just failed in February

Decision style: highest trust + same-week install. Won't accept space heaters for 3 weeks. Acquisition: Google search + neighbor recommendation. Spend trigger: in-home estimate same day, financing same-as-cash 18-mo, NATE-certified installers. 5-star trigger: clean tech, booties, walked through new thermostat. Will refer 2-3 neighbors over 5 yrs. LTV: \$9,200 furnace + \$2,400 AC in 4 yrs + \$230/yr maintenance × 8 yrs + 2 referrals = \$19,840 direct + referral.

Cycle / calendar model

Residential trades run on weather + emergency + seasonal-prep cycles by trade:

Window	Trigger	Action
Pre-cooling (Apr-May)	AC tune-up + replacement	AC tune-up promo + financing campaign
Cooling peak (Jun-Aug)	Emergency AC + new install demand	Capacity max + on-call rotation + premium pricing
Pre-heating (Sep-Oct)	Furnace tune-up + replacement	Furnace tune-up promo + chimney + heat pump campaign
Heating peak (Nov-Feb)	Emergency furnace + replacement	Capacity max + 24-hr emergency + replacement closes
Roofing season (Mar-Nov)	Storm + scheduled replacement	Storm chase + insurance claim assistance + named manufacturer system
Landscaping (Mar-Nov)	Spring cleanup → mowing → fall cleanup	Maintenance plan recurring + design-build off-season
Slow season (Dec-Feb for non-HVAC)	Indoor projects + bath / kitchen remodels	Sales meetings + marketing investment + training
Annual: license + insurance renewal	State-required compliance	License + W/C + GL renewal calendar

Issue library

- Pricing surprise / scope creep — universal — frame as flat-rate pricing book + photo documentation
- No-show / late arrival — universal — frame as dispatch software + on-the-way text
- Comeback / warranty issue — universal — frame as written warranty + manufacturer pro program
- Aggressive up-sell pressure — universal — frame as menu pricing + good/better/best
- Bait-and-switch advertising — universal — frame as transparent online pricing + Google LSA

- Cleanup after work — universal — frame as crew checklist + post-job walkthrough
- Lead-time for non-emergency work — universal — frame as scheduling discipline + secondary crew
- Tech turnover impacts repeat customers — universal — frame as named-tech relationship + retention pay

Report sections

Section	Contents
Operation snapshot	Trade(s), trucks, techs, monthly call volume, named comp set
Top 5 trust + revenue moves	Drawn from 18-category playbook
Manufacturer + cert program audit	Named pro programs not yet enrolled + ROI estimate
Membership / maintenance plan build	Named software + plan structure + member-benefit map
Lead gen channel mix	LSA + paid + reputation + neighborhood — channel-by-channel CAC
Customer personas (4 + lost call)	Emergency / planned / repeat / referral
Annual cycle plan	Weather + service-interval calendar by trade
Known industry challenges	Collapsed drawer

KPIs to track

- Avg ticket per job (\$)
- Booked-to-completed rate (target > 85%)
- Member / maintenance plan count + retention
- Avg Google rating + review velocity
- Lead-source CAC by channel
- Tech retention 12-mo (target > 70%)
- Comeback / warranty rate (target < 4%)

construction.commercial_gc — Commercial general contractors, design-build, tenant improvement, commercial remodel

Business model	B2B_relationship
NAICS examples	236220, 238910, 541330 (design-build mixed)
Competitor radius	60-90 mi for mid-market commercial. Specialty (data center, healthcare, lab) regional 200+ mi. National GCs operate without radius. Local advantage strongest within 30 mi due to subcontractor + permit relationships.

Data sources

Source	Returns	Cost	Fallback
Dodge Construction Network	Project leads + bid opportunities	Subscription	BNi Building News
ConstructConnect (formerly iSqFt)	Bid invitations + plan rooms	Subscription	Direct
Local AGC / ABC chapter directory	Named peer competitors + association events	Member-only	Public
Architect / engineer Rolodex (named A&E; firms)	Repeat-client pipeline	Direct relationships	AIA
Owner / developer / property mgmt directory	Named clients + portfolio	Direct + CoStar	Chamber
Procore + Buildertrend benchmarks	Industry KPI benchmarks	Subscription / public	Internal
ENR Top 400 / Top Regional Contractors	Industry positioning	Subscription	Public summary
BIM 360 / Autodesk Construction Cloud	Project collab + spec data	Subscription	PDF plans

Review categories tracked

- Schedule reliability (substantial completion vs commit)
- Budget reliability (final cost vs original GMP / lump sum)
- Change-order professionalism
- Subcontractor management
- Punch-list completion speed
- Communication / project management quality
- Safety record (EMR, OSHA recordable)
- Warranty period responsiveness

Opportunity playbook (17 categories)

Category	Research basis	Example with named entity
AGC / ABC association membership + local board roles	AGC chapter activity + Excellence in Construction awards	AGC of America + state chapter — \$4,800/yr — drives 6-8 invited bids/yr from architect referrals at zero ad spend
Procore + Bluebeam + ACC tech stack	Construction tech adoption + benchmark productivity	Procore + Bluebeam Revu + Autodesk Construction Cloud — \$1,800/seat/yr — bid + execute on 20% larger projects than Excel-only competitors
EMR (Experience Mod Rate) reduction program	EMR economics + insurance carrier credits	EMR from 1.10 to 0.85 — saves \$48k/yr on workers comp + qualifies for 14% more bid opportunities (many owners require < 1.0)

Category	Research basis	Example with named entity
OSHA STAR / VPP certification	OSHA Voluntary Protection Programs	OSHA VPP STAR designation — captures premium safety-required projects (oil/gas, healthcare, K-12) at \$0 application cost
LEED AP / WELL AP credentialed staff	USGBC + IWBI credentials + project demand	2 staff LEED AP BD+C + 1 WELL AP — qualifies for sustainable + healthcare projects, drives premium \$/ft² on 22% of bids
Self-perform capability expansion	In-house labor vs sub-out economics	In-house concrete + drywall crew — saves 12% on those scopes vs sub-out + improves schedule control on 60% of projects
Design-build delivery method positioning	DBIA certification + market shift to D-B	DBIA Design-Build Professional designation — 38% of nonresidential projects now D-B (vs 22% 10 yrs ago) — captures growing share
Owner CRM + repeat-client program	BD CRM (HubSpot, Salesforce, Pipedrive)	HubSpot CRM + 8-touch nurture sequence — repeat-client revenue from 32% to 58% of total over 3 yrs
Specialty market vertical (healthcare, education, multifamily, data center)	Vertical-specific certifications + experience	Healthcare-specific niche + ICRA (Infection Control Risk Assessment) training — captures 14% premium \$/ft² on hospital + clinic work
Preconstruction services as paid offering	CMR / CMAR delivery method economics	Preconstruction services as fee-based (\$45-95k typical for \$5M project) — captures owner relationship 6-12 mo before bid + 80% conversion to GMP
Subcontractor pre-qualification program	TextRecruit + ISN + Avetta + Pre-Quals	ISN-managed sub prequal — drops bond claims + delays from sub failures by 40% — improves owner trust
Bond capacity expansion + surety relationship	Named surety partners (Liberty Mutual, Travelers, Chubb)	Surety relationship review + financial restructuring — single-project capacity from \$4M to \$12M — qualifies for 3× more bid opportunities
BIM / virtual design + construction (VDC) capability	BIM mandate trends + USACE / VA / GSA requirements	In-house VDC team + Revit / Navisworks — captures federal / institutional projects requiring BIM (LOD 350+)
Apprenticeship + workforce development pipeline	DOL Registered Apprenticeship + named trade schools	Registered Apprenticeship with named technical college — 8 apprentices/yr — qualifies for federal Davis-Bacon premium projects + workforce credit
Marketing / BD investment ramp	SMPS + commercial-construction marketing benchmarks	SMPS membership + dedicated marketing hire (\$85k) + branded RFQ template — wins 22% more invited proposals

Category	Research basis	Example with named entity
Awards + recognition pipeline	Named awards (AGC Build America, ENR Best Project, ABC Excellence)	AGC Build America Award nomination + ENR regional Best Project — drives owner trust + media + repeat-client perception
DBE / MBE / WBE / VBE certification (if applicable)	Federal SBA + state UCP + city certifications	WBE certification through state UCP — qualifies for set-aside on \$42M federal + state work annually in market

Specificity rules (anti-hallucination)

- Every named association must be real (AGC, ABC, AIA, DBIA, USGBC, IWBI, SMPS)
- Every named software must be real (Procore, Buildertrend, Sage 100/300 Contractor, Foundation, BuilderTREND, BIM 360, Autodesk Construction Cloud)
- Every named delivery method must be real terminology (DBB, CMR, CMAR, D-B, IPD, PPP)
- Every named cert must be real (LEED AP, WELL AP, DBIA, OSHA, ICRA, Davis-Bacon)
- Every benchmark must come from real source (AGC, ABC, ENR, FMI, Dodge Outlook, Construction Financial Management Assoc)

Cost scale calibration

Commercial GC spend bands are professional B2B + project-finance scale:

Band	Spend type
1 — Under \$5,000	Membership, association event, cert application, training
2 — \$5,000 to \$50,000	Software stack upgrade, marketing hire, conference / award nomination
3 — \$50,000 to \$500,000	New delivery capability buildout, fleet expansion, surety upgrade
4 — \$500,000 to \$5M	Self-perform capability acquisition, major equipment, regional office
5 — Over \$5M	Acquisition, new market entry, major capacity expansion

Persona schema

B2B_buyer (multi-stakeholder developer / owner / architect)

- Owner type (developer, corporate facilities, institutional, REIT, government)
- Project type + size + delivery method preference
- Decision committee (owner + PM + architect + lender)
- Selection criteria (price vs schedule vs trust)
- Acquisition path (architect referral, repeat client, RFP / RFQ, design-build)
- Bond + insurance + safety requirements
- LTV (projects × project value × repeat probability over 5 yrs)

Cycle / calendar model

Commercial construction runs on capital-budget + lease-cycle + government-fiscal-year cycles:

Window	Trigger	Action
Capital budget season (Aug-Nov)	Owner finalizes next-year budgets	BD outreach + preconstruction services pitches
Bidding season (Jan-Apr)	Most ground-up commercial bids	Estimating capacity + sub coverage
Construction peak (May-Oct)	Field work peak — outdoor + concrete	Schedule discipline + sub coordination
Tenant improvement cycle (rolling)	Lease renewals + tenant changes	Property mgmt relationships + small-job machine
Government fiscal year-end (Sep)	Federal + state spend deadline	Targeted bidding on FY-end projects
Awards + industry recognition (Q1)	Awards submission deadlines	Project documentation + photo + entry prep
Annual: insurance + bond + financial review	Surety + carrier relationships	Audit-ready financials + EMR review

Issue library

- Schedule slip / substantial completion miss — universal — frame as schedule discipline + sub coordination
- Change-order disputes — universal — frame as upfront scope + photo documentation
- Sub failure / bonding issues — universal — frame as ISN prequal + sub bonding
- Owner cost-creep complaints — universal — frame as transparent reporting + monthly review
- Punch-list endless drag — universal — frame as substantial-completion discipline + named PM
- Weather / material delay — universal — frame as schedule float + named-supplier alternatives
- Quality control on subs — universal — frame as superintendent ratio + QC plan
- Safety incident response — universal — frame as ICRA + safety culture + EMR target

Report sections

Section	Contents
Firm snapshot	Annual revenue, project mix, delivery methods, named comp set
Top 5 capability + BD moves	Drawn from 17-category playbook
Delivery-method + vertical specialization plan	D-B + healthcare + multifamily + data-center pathways
BD + repeat-client pipeline	Named owner / architect / developer prospects
Tech stack + VDC capability roadmap	Procore + BIM + ACC implementation
Safety + EMR reduction roadmap	Named programs + insurance partner roadmap
Bond + surety + financial capacity plan	Named surety + capacity goal

Section	Contents
Known industry challenges	Collapsed drawer

KPIs to track

- Annual revenue + backlog (\$)
- Profit fade % (gross margin at completion vs at signing)
- Schedule reliability % (substantial completion within 5% of commit)
- EMR (target < 0.85)
- Repeat-client revenue % (target > 50%)
- Single-project bond capacity (\$)
- Win rate on invited bids (target > 25%)

construction.civil_heavy — Civil + heavy construction (roads, bridges, utilities, excavation, demolition, site work)

Business model	B2B_transactional
NAICS examples	237310, 237110, 237120, 237130, 238910 (excavation), 238990
Competitor radius	100-200 mi for state DOT projects (mobilization economics). Federal projects regional / national. Municipal water / sewer / road projects 50-mile radius. Specialty (deep foundation, marine, dam) regional 300+ mi.

Data sources

Source	Returns	Cost	Fallback
State DOT bid letting calendar	Public-letting + DOT contract awards	Free public	WisDOT, etc.
Federal SAM.gov + GSA Schedules	Federal opportunities + GSA contracts	Free	Direct
Local + county procurement portals	Municipal bids + RFPs	Free	Direct
Dodge Construction Network + ConstructConnect	Project leads + plan rooms	Subscription	BNi
Bid Express + DOT plan rooms	Active DOT bid documents	Subscription	Direct
ARTBA (American Road & Transp Builders) + AGC Highway-Heavy	Industry trends + named peers	Member-only	Public summary
Utility / water / sewer authority bid lists	Named owner agencies	Free	Direct application

Source	Returns	Cost	Fallback
ENR Top 50 Highway / Top 50 Heavy Civil	Industry benchmarking	Subscription	Public summary

Review categories tracked

- On-time / on-budget delivery
- Bid accuracy + change-order frequency
- Safety record (EMR, OSHA TRIR)
- Financial capacity (bond rating)
- DBE / MBE / WBE / VOSB compliance reliability
- Equipment availability + condition
- Quality of work (inspection + lab test pass rate)
- Community / public relations during work

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
DBE / MBE / WBE / VOSB / SDVOSB certification	Federal SBA + state UCP + city set-aside programs	Wisconsin UCP DBE certification — qualifies for federal-aid highway 7%+ DBE goal — captures \$14M annually in market set-aside work
Bond capacity ramp	Named surety partners (Travelers, Liberty Mutual, Zurich, Chubb)	Surety relationship + financial restructuring — single-project capacity from \$20M to \$80M — qualifies for state DOT prime rather than sub
DOT prequalification across multiple states	State DOT prequalification process by state	Prequalify in WI + IL + IA + MN — quadruples addressable bid market — covers mobilization radius
GPS / machine-control equipment investment	Trimble + Topcon + Leica machine control	Trimble GCS900 retrofit on 4 dozers + grader — saves 18% on earthwork production + improves bid competitiveness on grading-heavy projects
Specialty capability (deep foundation, MSE wall, microtunneling)	Named specialty contractor associations (DFI, ADSC, NUCA)	NUCA-member microtunneling capability — captures premium \$/lf on water + sewer crossings, only 4 regional competitors
BIM / VDC + 3D model-based bidding	AASHTO BIM mandate + DOT model-based delivery	In-house VDC team + Trimble Business Center — captures DOT projects with model-based contracting requirement (growing)
P3 / design-build / progressive delivery capability	AASHTO + DBIA + state P3 programs	DBIA Design-Build cert + JV partner network — qualifies for \$200M+ progressive design-build projects (smallest GCs can't)
Federal-aid project compliance program	Davis-Bacon + Buy America + FHWA + FAA + FRA requirements	Compliance team + Davis-Bacon payroll system (LCPtracker, Hire360) — qualifies for federal-aid projects without margin loss to compliance violations

Category	Research basis	Example with named entity
Equipment-fleet utilization + telematics	Cat VisionLink + Trimble fleet management	Cat VisionLink telematics on 80-unit fleet — equipment utilization from 58% to 76% + saves \$340k/yr in fuel + idle reduction
Safety + EMR + OSHA compliance program	OSHA VPP + ARTBA Safety Award	EMR from 1.05 to 0.78 + OSHA VPP STAR — saves \$620k/yr on workers comp + qualifies for safety-mandatory bid lists
Aggregate / asphalt vertical integration	Vertical-integrated supply economics	Acquire local aggregate pit (or asphalt plant) — saves 18% on materials cost on own projects + adds external sales revenue stream
Named-account + agency relationships (DOT, Corps, BLM)	Federal + state + agency procurement officers	Dedicated agency-liaison position — drives 14% win-rate lift on agency projects via relationship + early intel on upcoming work
Workforce / craft pipeline through unions or non-union associations	Named labor unions + open-shop associations (LiUNA, IUOE, ABC merit)	LiUNA Master Agreement (or ABC merit shop) — secures predictable labor supply + apprenticeship pipeline
Industry award recognition (ARTBA, AGC, Build America)	Named award programs + submission cycles	ARTBA Globe Award + AGC Build America — drives agency relationship + media + recruitment

Specificity rules (anti-hallucination)

- Every named association must be real (ARTBA, AGC, NUCA, DFI, ADSC, AASHTO, ASCE)
- Every named software must be real (Trimble Business Center, HCSS HeavyBid + HeavyJob, B2W, AGTEK, InEight)
- Every named cert / program must be real (DBE, MBE, WBE, VOSB, SDVOSB, HUBZone, 8(a))
- Every named federal program must be real (FHWA, FAA, FRA, USACE, BLM, BIA, FEMA)
- Every benchmark must come from ENR / FMI / ARTBA / state DOT data

Cost scale calibration

Civil/heavy construction operates on capital-equipment + bond-capacity + agency-prequal scale:

Band	Spend type
1 — Under \$10,000	Cert application, prequal application, association membership
2 — \$10,000 to \$100,000	Software stack, training, machine-control retrofit
3 — \$100,000 to \$1M	Equipment add (single piece), specialty crew capability, surety upgrade
4 — \$1M to \$10M	Major equipment fleet add, vertical integration acquisition, regional office
5 — Over \$10M	Full fleet expansion, new market entry, M&A; acquisition

Persona schema

B2B_buyer (government / institutional procurement)

- Owner agency (state DOT, federal, county, city, water district)
- Project type + size + delivery method
- Procurement officer + selection committee
- Set-aside requirements (DBE %, Buy America, Davis-Bacon)
- Bond + insurance + safety requirements
- Lowest-responsive-bid vs best-value selection
- LTV (projects × value × repeat over 10 yrs in agency)

Cycle / calendar model

Civil/heavy construction runs on government fiscal-year + state DOT letting + weather cycles:

Window	Trigger	Action
Federal FY-end (Sep)	Federal spending deadline	Bid pipeline ramp on FY-end agency work
State DOT lettings (Jan-Apr peak)	State DOT bid season	Estimating capacity max + bid bond preparation
Construction season (Apr-Nov in north)	Outdoor field work peak	Equipment + crew utilization max
Winter shutdown (Dec-Mar in north)	Limited field work	Equipment maintenance + bid prep + training
Annual: prequalification + agency renewals	State DOT + federal SAM updates	Compliance + financial submission discipline
Quarterly: surety + bond review	Surety relationship + capacity	Surety meeting + financial review
Election cycles (state DOT funding)	Transportation bill renewal + state budget	Government affairs + agency relationship building

Issue library

- Bid accuracy / underestimating — universal — frame as estimating discipline + HCSS HeavyBid
- Change order / claim disputes — universal — frame as documentation + claim-prep team
- Subcontractor + supplier failure — universal — frame as prequal + bonding subs
- Equipment downtime — universal — frame as preventive maintenance + telematics
- Workforce / craft availability — universal — frame as union or merit-shop pipeline
- Safety incident impact on EMR + bid eligibility — universal — frame as VPP + safety culture
- Compliance failure (DBE, Davis-Bacon) — universal — frame as compliance team + LCPtracker
- Material price escalation — universal — frame as escalation clauses + supplier hedge

Report sections

Section	Contents
Firm snapshot	Annual revenue, project mix, equipment fleet, named comp set

Section	Contents
Top 5 strategic + capability moves	Drawn from 14-category playbook
Set-aside + cert program audit	DBE / MBE / WBE / VOSB pathway analysis
Agency + prequal expansion plan	Named DOT + federal agencies + prequal status
Equipment + tech investment roadmap	GPS + machine control + telematics priorities
Safety + EMR + compliance program	Named programs + benchmark targets
Bond + financial capacity plan	Named surety + capacity goal + financial restructuring
Known industry challenges	Collapsed drawer

KPIs to track

- Annual revenue + backlog (\$)
- Profit fade % (gross margin at completion vs at signing)
- EMR (target < 0.85) + OSHA TRIR
- Equipment utilization %
- Single-project bond capacity (\$)
- Win rate on submitted bids (target > 15% in low-bid markets)
- DBE / set-aside compliance rate

Engineering guidance

Sector 23 is the second-biggest sector by code count and the most operationally diverse. Build construction.residential_trades first (Phase 2, fits B2C-appointment + trade-to-premises pattern, biggest market). Commercial GC is Phase 3 (B2B relationship sale, no Google reviews — needs different signal sources). Civil/heavy is Phase 4-5 specialty (B2B transactional bid-let process, government procurement focus, fundamentally different from any other sub-cluster).

CHAPTER 52 — FINANCE & INSURANCE

Community banks, credit unions, independent insurance agencies, RIAs, wealth managers. The Phase 3 priority — high LTV, regulated, relationship-driven.

One-line truth

A community bank does not have Yelp reviews and would not want them — its customers are CEOs and developers, not Sunday brunch diners. An independent P&C; agency depends on carrier relationships v3 has no concept of. An RIA is regulated by FINRA + SEC ADV and cannot legally do half the marketing v3 suggests for hospitality. Three regulated profiles required.

NAICS code count: 31 **Sub-clusters:** 3

finance.community_bank — Community banks, credit unions, local lenders

Business model	B2B_relationship + B2C_relationship hybrid
NAICS examples	522110, 522120, 522130, 522190, 522291, 522292
Competitor radius	Defined by branch deposit-market-share radius + lending-territory not retail radius. Community banks compete within MSA / county. Credit unions defined by membership field-of-membership (FOM) — geographic, employer-based, or association-based.

Data sources

Source	Returns	Cost	Fallback
FDIC Bank Find + Call Reports	Financial benchmarks + peer analysis	Free public	Direct
NCUA Credit Union Locator	Credit union financial data	Free public	Direct
Federal Reserve Y-9 reports	Holding company data	Free public	Direct

Review categories tracked

- Loan decision speed
- Local decision-making (vs regional / national approval)
- Branch staff knowledge
- Online + mobile banking experience
- Treasury management capability (for business clients)
- Fee transparency
- Community involvement
- Relationship banker accessibility

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
SBA preferred lender (PLP) + 7(a) + 504 program	SBA PLP designation + named participating lender list	SBA Preferred Lender (PLP) status — captures 22% of small-business loan demand at premium fee structure + faster approval (no SBA second-look)
Treasury management product expansion	Named treasury products + commercial fee schedule	Add ACH origination + remote deposit capture + commercial card — captures \$14k/mo recurring fee revenue per 80-account business book
Digital banking + mobile experience modernization	Named core banking + digital partners (Jack Henry, Fiserv, FIS, Q2, Alkami)	Q2 Digital Banking platform — mobile + online experience matches big banks — slows runoff to Chime / Ally / Chase
Community Reinvestment Act (CRA) outperformance program	CRA exam categories + small-business + community development lending	"Outstanding" CRA rating — qualifies for branch + acquisition fast-track + local community trust + \$0 bid lift on muni RFPs
Business banking RM + named-business prospect campaign	Local business directories + chamber + named prospects	Dedicated commercial RM team + 60 named-prospect campaign — wins 14% of targeted businesses at \$48k/yr per relationship LTV
Niche industry vertical specialization	Industry-vertical concentration + risk management	Ag-lender niche or medical-practice niche or hospitality lender — captures premium spread + builds peer-referral pipeline
Wealth management / trust services add-on	Named trust + investment partners (LPL Financial, Cetera, Raymond James)	LPL Financial relationship — captures wealth-management fees from existing deposit clients — adds \$480k/yr revenue from 80 clients

Category	Research basis	Example with named entity
Mortgage lending niche (jumbo, ag, construction)	Mortgage product specialization	Construction-to-perm loan specialty — fills gap big banks won't serve — captures 28% premium on niche mortgage book
Fintech partnership / banking-as-a-service	Named BaaS partners (Treasury Prime, Synctera, Unit, Column)	Treasury Prime BaaS partnership — captures fintech sponsor-bank fees + diversifies from interest-rate dependence
Branch network optimization	Branch profitability + closure economics	Close 2 lowest-performing branches + invest in 1 high-growth area — saves \$480k/yr OpEx + improves market positioning
CDFI certification (Community Development Financial Institution)	CDFI Fund certification + Treasury programs	CDFI cert through Treasury Department — captures Treasury New Markets Tax Credit + EQ2 programs + \$4M+ federal capital access
Cash management for municipal + nonprofit clients	Named municipalities + nonprofits + RFP timing	County treasurer + 4 named municipalities + 18 nonprofits — captures \$80M-200M in stable deposits at low-cost
Customer experience + NPS program	Named CX consultants + NPS benchmarks for community banks	NPS program with quarterly survey — score lift from 28 to 58 — drives 14% deposit growth from referrals
Cybersecurity + fraud + BSA compliance maturation	Named compliance partners + BSA / AML / OFAC platforms	Verafin / NICE Actimize BSA / AML platform — drops false positives 60% + improves regulator relationship

Specificity rules (anti-hallucination)

- Every named regulator must be real (FDIC, NCUA, OCC, Fed, CFPB, FinCEN, state banking dept)
- Every named core/digital banking platform must be real (Jack Henry SilverLake/Symitar, Fiserv DNA/Premier, FIS Horizon/IBS, Q2, Alkami, Bottomline)
- Every named SBA / CDFI / federal program must be real (PLP, 7(a), 504, CDFI Fund, NMTC, BankOn, USDA Rural)
- Every named BaaS / fintech partner must be real (Treasury Prime, Synctera, Unit, Column, Cross River)
- Every benchmark must come from real source (FDIC Call Reports, NCUA, Bank Director, ABA, ICBA)

Cost scale calibration

Community bank + credit union spend bands operate at institutional + technology scale:

Band	Spend type
1 — Under \$10,000	Cert application, partnership outreach, training, association membership
2 — \$10,000 to \$100,000	Software module, marketing campaign, RM hire
3 — \$100,000 to \$1M	Digital banking upgrade, BSA platform, treasury product launch
4 — \$1M to \$10M	Core banking migration, branch buildout, fintech partnership infrastructure

Band	Spend type
5 — Over \$10M	M&A; acquisition, full core conversion, holding company expansion

Persona schema

B2B_buyer + B2C_consumer hybrid

- Customer type (consumer / small-business / commercial / mortgage / treasury)
- Decision driver (rate, service, local-decisioning, technology)
- Relationship depth (single-product vs full-banking vs trust)
- Acquisition channel (referral, walk-in, online, RM relationship)
- Primary banker name / RM
- LTV (deposit avg balance × spread + fee income + loan interest over 8-15 yr relationship)

Cycle / calendar model

Banking runs on regulatory + business-cycle + budget cycles:

Window	Trigger	Action
Q1 (Jan-Mar)	Year-end financials + tax + new-year planning	Commercial loan demand + tax-time small-business outreach
Q2 (Apr-Jun)	Construction season + mortgage spring	Construction lending peak + mortgage refi opportunity
Q3 (Jul-Sep)	Federal FY-end + budget planning	Municipal RFP responses + fiscal-year-end deposits
Q4 (Oct-Dec)	Year-end + holiday + tax planning	Commercial renewal + year-end planning + holiday consumer
Annual: regulatory exam cycle	FDIC / OCC / Fed / state exam	Pre-exam compliance review + management response prep
Quarterly: Call Report + financial reporting	FDIC + state regulatory filing	Financial reporting discipline + benchmarking
CRA exam cycle (every 3-5 yrs)	CRA performance evaluation	Community development project documentation

Issue library

- Big-bank rate competition — universal — frame as service + local-decisioning + relationship moat
- Fintech / neobank competition for consumer — universal — frame as digital UX + niche + community
- Loan decision speed — universal — frame as local credit committee + automated underwriting
- Mobile / online experience gap — universal — frame as digital banking platform investment
- Branch foot-traffic decline — universal — frame as branch optimization + staff retraining for advisory
- Compliance burden vs revenue — universal — frame as RegTech investment + scale
- Talent retention vs big banks — universal — frame as ESOP + community mission + career path

- Net interest margin compression — universal — frame as fee income diversification + treasury management

Report sections

Section	Contents
Bank snapshot	Assets, branches, deposit + loan book mix, named comp set
Top 5 growth + niche moves	Drawn from 14-category playbook
Niche specialization roadmap	SBA + ag + medical + construction-to-perm + CDFI pathways
Treasury + business banking expansion plan	Named products + named target clients
Digital banking + tech roadmap	Core + digital + BSA upgrade priorities
Community + CRA + nonprofit + muni pipeline	Named target community + muni clients
Customer personas (4 + lost client)	Small-business / commercial / consumer / municipal
Known industry challenges	Collapsed drawer

KPIs to track

- Total assets + deposit growth %
- Net interest margin (NIM) + return on assets (ROA)
- Efficiency ratio (target < 60%)
- Loan / deposit ratio
- Non-interest income % of revenue (target > 25%)
- CRA rating (target Outstanding)
- Loan portfolio mix (target diversified — no concentration > 25%)

finance.insurance_agency — Independent insurance agencies (P&C;, life, health, commercial)

Business model	B2B_relationship
NAICS examples	524210
Modern variants	Cyber-Insurance Specialist Agency, Cannabis-Industry Agency, EPLI Specialty Agency
Competitor radius	15-25 mi for personal lines retail. Commercial insurance regional 100+ mi. Specialty / niche national. Captive agents (State Farm, Allstate) compete by territory; independents compete by carrier breadth + service.

Data sources

Source	Returns	Cost	Fallback
Big "I" (IIABA) member directory	Named peer competitors + carrier appointments	Member-only	Public
Trusted Choice + ASCnet	Independent agency network membership	Member-only	Direct
Carrier appointment letters	Direct documentation of carrier relationships	Internal	Direct
AM Best ratings	Carrier financial strength	Subscription / public	Direct
Named agency-mgmt systems (AMS360, Applied Epic, EZLynx, Vertafore Sagitta)	Internal book benchmarks	Subscription	Internal export
NAIC + state DOI consumer search	License + complaint history	Free	Direct
Local commercial business directory + chamber	Named commercial prospects	Free / member	Direct
NAPSLO / WSIA (excess + surplus markets)	E&S; carrier access	Member-only	Wholesale broker

Review categories tracked

- Coverage advice quality
- Carrier breadth (independent advantage)
- Claims advocacy / claim outcome
- Annual review thoroughness
- Premium increase explanation
- Response to coverage questions
- Online quote / portal capability
- Commercial risk management value-add

Opportunity playbook (15 categories)

Category	Research basis	Example with named entity
Carrier appointment expansion	Named carriers by line + market	Add 4 named carrier appointments (Hartford, Travelers, Liberty Mutual, Cincinnati) — adds 22% close rate on commercial accounts via market advantage

Category	Research basis	Example with named entity
Trusted Choice + Big I network membership	Named independent agency networks (Smart Choice, ISU, Renaissance Alliance, Iroquois)	Iroquois Group affiliation — \$2,400/yr — unlocks Travelers + Hartford + Erie + 18 other carriers without volume requirement
Niche industry vertical	Industry-specific E&O; + risk + carrier programs	Trucking + transportation niche — captures premium \$/account with specialty carriers (Great West, National Indemnity, Progressive Commercial)
Commercial lines + risk management value-add	Risk management consulting + named partners	Risk control + safety consulting — partners with named industrial hygienist + workers comp loss control — drives client retention from 84% to 94%
Cyber + EPLI + management liability specialty	Cyber market growth + named specialty carriers (Beazley, Coalition, At-Bay, Chubb)	Cyber specialty practice — Coalition + At-Bay markets — captures 38% growing market segment + cross-sell into existing accounts
Agency management system upgrade	Named AMS platforms by agency size	Applied Epic (\$95k all-in) for \$5M+ revenue agency — drives 18% productivity + better data for cross-sell + carrier reporting
Online quoting + comparative rater	Named comparative raters (EZLynx, PL Rating, QuoteRush, Tarmika)	EZLynx Rating — same-day personal lines quote across 12 carriers — captures 38% of online shoppers + improves close rate
Account rounding / cross-sell program	P&C; account rounding + cross-line attach	Auto-only customer cross-sell to home + umbrella + life — average premium per household from \$1,400 to \$4,800 = 3.4× LTV
Annual review + retention program	Named retention systems + annual review structure	Mandatory annual review + risk-coverage gap analysis — retention from 86% to 94% — adds 8% revenue compounding
Producer / agent recruiting + commission structure	Producer comp benchmarks + book-buying economics	Hire experienced producer with \$400k book-portable comp + revenue share — adds \$400k revenue at 50% margin in year 1
E&O; risk management program	Named E&O; carriers + best-practices	Named E&O; carrier (Westport, Hanover, Big I E&O;) + documentation discipline — premium savings + claim avoidance
Wholesale + E&S; broker relationships	Named E&S; wholesalers (RT, AmRisc, Worldwide Facilities, Burns & Wilcox)	Wholesale broker relationships with 4 named brokers — captures hard-market commercial + niche risks captives can't place

Category	Research basis	Example with named entity
CIC / CPCU / CRM credentials for staff	Named insurance designations + their value	CPCU + CIC designations on senior staff — drives commercial close rate + premium positioning + carrier preference
Agency M&A; / book-buying strategy	Aggregator landscape + valuation multiples	Acquire retiring solo agent's \$300k book at 2.5× revenue × 3-yr earn-out — adds revenue + diversifies carrier mix
Captive insurance / group captive program	Named captive managers + group captive structures	Group captive program for trucking clients — \$480k premium on captive layer + 22% rate stability

Specificity rules (anti-hallucination)

- Every named carrier must be real and currently writing in this state (Travelers, Hartford, Liberty Mutual, Chubb, Cincinnati, Erie, Auto-Owners, Hanover, Berkley, Nationwide, Progressive Commercial, etc.)
- Every named E&S; carrier must be real (Lloyd's, AIG E&S;, Zurich, AXA XL, Berkshire Hathaway Specialty)
- Every named AMS / rater must be real (AMS360, Applied Epic, EZLynx, Vertafore Sagitta + PL Rating, QuoteRush, Tarmika, ITC Insurpro)
- Every named designation must be real (CIC, CPCU, CRM, AAI, ARM, AINS, AU)
- Every named association must be real (IIABA, PIA, NAIFA, NAPSLO, WSIA)

Cost scale calibration

Insurance agency spend bands operate at small-business + producer-comp scale:

Band	Spend type
1 — Under \$1,000	Cert application, network membership, designation course
2 — \$1,000 to \$10,000	Comparative rater, marketing campaign, association event
3 — \$10,000 to \$100,000	AMS upgrade, producer comp restructure, niche specialty launch
4 — \$100,000 to \$1M	Agency acquisition (small book), commercial niche buildout, regional office
5 — Over \$1M	Large agency acquisition, full AMS migration, multi-office expansion

Persona schema

B2B + B2C hybrid (insured + carrier + producer)

- Insured type (consumer personal lines / small commercial / mid-market commercial / niche)
- Decision driver (price vs coverage vs service)
- Relationship depth (transactional vs full-account)
- Acquisition channel (referral, online, captive switch, account rounding)
- Producer ownership
- LTV (premium × commission × retention years)

Cycle / calendar model

Insurance runs on policy renewal + carrier-cycle + market-condition cycles:

Window	Trigger	Action
Renewal cycle (rolling)	Each policy 12-mo renewal	Annual review + cross-sell at renewal
Hard market vs soft market shifts	Carrier appetite changes	Marketing campaign + carrier negotiation
Q4 (Oct-Dec)	Commercial renewal peak (calendar-year businesses)	Account-round + commercial new-business push
Q1 (Jan-Mar)	New-business + small-business start-up surge	Personal lines new + small commercial campaign
Annual: carrier QBR + appointment review	Carrier production + relationship	QBR meetings + production goal commitments
Quarterly: producer pipeline review	Pipeline + close rate discipline	Pipeline reviews + producer coaching
Annual: license + CE + E&O; renewal	State + designation requirements	CE compliance discipline

Issue library

- Premium rate increase explanation — universal — frame as upfront communication + carrier marketing
- Carrier non-renewal / appetite shift — universal — frame as multi-carrier + early communication
- Claims advocacy when client unhappy with carrier — universal — frame as documented claim advocacy + escalation
- Captive (State Farm, Allstate) competition — universal — frame as carrier breadth + independent advice
- Aggregator / national agency (Insureon, Lemonade, NEXT) competition — universal — frame as relationship + commercial expertise
- Producer turnover with portable book — universal — frame as non-compete + culture + comp structure
- AMS data quality + reporting — universal — frame as AMS hygiene + management discipline
- E&O; exposure on coverage gaps — universal — frame as documentation + checklist

Report sections

Section	Contents
Agency snapshot	Annual revenue, carrier count, book mix, named comp set
Top 5 growth + retention moves	Drawn from 15-category playbook
Carrier appointment + network strategy	Named carrier gaps + network options
Niche specialization plan	Vertical opportunity + carrier-program access
Account rounding + cross-sell program	Existing book × cross-sell opportunity
Producer + comp + book strategy	Hire / acquire / retain plan

Section	Contents
Tech + AMS + comparative rater roadmap	Named platforms + investment priorities
Known industry challenges	Collapsed drawer

KPIs to track

- Total written premium (\$) + commission revenue
- Retention rate (target > 90%)
- Account rounding / lines per household (target > 2.4 personal, > 3.5 commercial)
- New-business growth %
- Loss ratio (carrier-relevant) + carrier production
- Producer retention + book per producer

finance.ria_wealth — Registered investment advisors, wealth managers, financial planners

Business model	B2C_relationship
NAICS examples	523930, 523920, 524292, 525910
Modern variants	Niche RIA (physicians, tech execs, dentists, business owners), Robo-Advisor Hybrid, Family Office
Competitor radius	For traditional in-person RIAs: 25-50 mi. For virtual / niche RIAs: national. For RIAs serving HNW + UHNW: regional 200+ mi. Niche specialization (physicians, business owners, tech execs) increasingly national via Zoom.

Data sources

Source	Returns	Cost	Fallback
SEC ADV (Form ADV Part 2A + 2B)	Public regulatory filing — fees, services, conflicts	Free public	IAPD
FINRA BrokerCheck + IAPD	Advisor + firm regulatory history	Free public	Direct
CFP Board public disclosure	CFP cert + history	Free	Direct
NAPFA member directory (fee-only)	Named fee-only peer competitors	Member-only	Public
XY Planning Network + Garrett Planning	Named hourly / flat-fee planning peers	Member-only	Public
Fee Only Network + WealthTender	Named consumer-facing fee-only directories	Free	Direct

Source	Returns	Cost	Fallback
Barron's + Forbes Top RIAs / Top Advisors	Industry recognition + benchmark	Subscription	Public
Cerulli + Schwab + Fidelity custodian benchmarks	Industry KPI benchmarks	Subscription	Public summary

Review categories tracked

- Fiduciary alignment / fee transparency
- Financial-plan thoroughness
- Investment performance vs benchmark
- Communication frequency + responsiveness
- Tax + estate + insurance integration
- Niche / specialty fit
- Technology / portal experience
- Behavioral coaching during market stress

Opportunity playbook (15 categories)

Category	Research basis	Example with named entity
Niche specialization (physician, business owner, tech exec)	Named niche-specialty RIAs + their positioning	Physician-niche RIA — captures premium 1% AUM fee on \$4-8M client households + builds name-recognition pipeline + 92% retention
Fee-only / NAPFA / XYPN positioning	Named fee-only networks + brand value	NAPFA + XYPN dual membership — captures fee-only-aware client segment that won't consider commission advisors
CFP Board mark + advanced credentials (CFP / CFA / CPA / PFS)	CFP Board + CFA Institute + AICPA PFS	CFP + CFA + CPA / PFS triple credential — premium positioning + media + speaker requests
Financial-planning software stack upgrade	Named planning software (eMoney, MoneyGuidePro, RightCapital, NaviPlan)	eMoney Advisor + Holistiplan + RightCapital — captures HNW client expectations + drives close rate +18% on prospect meetings
Portfolio management + reporting platform	Named portfolio software (Orion, Black Diamond, Tamarac, Addepar)	Orion (\$35-75/account/yr) + dedicated client portal — supports growth from 80 → 300 households at quality-consistent service
Custodian relationship strategy (Schwab, Fidelity, Pershing)	Custodian platform fees + tech + service	Schwab Advisor Services primary custodian — captures Schwab's referral program + Schwab Advisor Network access for \$250k+ leads
CRM + workflow automation	Named RIA CRMs (Redtail, Wealthbox, Salesforce Financial Services Cloud, Practifi)	Wealthbox + Calendly + Loom + Zapier — automates 60% of client review prep + frees 12 hr/wk per advisor

Category	Research basis	Example with named entity
Tax planning + Holistiplan + Roth conversion mgmt	Named tax-planning software + integration	Holistiplan tax-return analysis + active Roth conversion management — captures \$14k/yr/client value-add fee opportunity + retention
Estate planning + legal partnership	Named estate-planning software + attorney partners (Wealth.com, Vanilla, Trust & Will)	Wealth.com or Vanilla estate-planning platform + 2 attorney partners — full-service offering vs generic planner — drives premium fee
Insurance / risk management integration	Named insurance partners + commission structure (or fee-based insurance)	Fee-only insurance review through DPL Financial Partners — captures planning fee on insurance review + integrates risk management
Content + thought-leadership engine	Named RIA marketing platforms (FMG Suite, Snappy Kraken, Twenty Over Ten)	Weekly newsletter + monthly market commentary + named press appearances — drives 4-6 prospect inquiries/mo at \$0 ad spend
Retirement plan / 401(k) advisory line	Named 401(k) advisor platforms (Fidelity Plan, Schwab, Empower)	401(k) advisory line — captures business-owner relationship that becomes wealth-management client at retirement
Succession planning / firm-equity strategy	Named M&A; platforms + valuation multiples (Mercer Capital, FP Transitions, Succession Resource Group)	Internal-succession plan + non-cash equity to next-gen advisors — retains talent + locks succession at 2.4× revenue vs 3.0× external
Behavioral coaching + DALBAR / Vanguard Advisor's Alpha messaging	DALBAR QAIB + Vanguard Advisor's Alpha framework	"3% Vanguard Advisor's Alpha" framing on review meetings — quantifies advisor value vs DIY for clients tempted by Vanguard / robo
Specialty service line (divorce, business sale, executive comp)	Named specialty designations (CDFA divorce, CExP business exit, CPWA HNW)	CExP (Certified Exit Planner) designation + business-owner niche — captures business-sale event + post-sale wealth-management \$20M+

Specificity rules (anti-hallucination)

- Every named cert must be real (CFP, CFA, CPA / PFS, CIMA, CPWA, CDFA, CExP, ChFC, RICP, CRPC)
- Every named software must be real (eMoney, MoneyGuidePro, RightCapital, NaviPlan, Holistiplan, Orion, Black Diamond, Tamarac, Addepar, Redtail, Wealthbox)
- Every named custodian must be real (Schwab, Fidelity, Pershing, TD/Schwab merged, Altruist, Apex)
- Every named association must be real (NAPFA, XY Planning Network, Garrett Planning, FPA, AICPA, CFP Board, FINRA, SEC)

- Every benchmark must come from real source (Cerulli, Schwab Independent Advisor, Fidelity RIA Benchmark, InvestmentNews)
- No marketing claim can violate FINRA / SEC marketing rule — all language must be defensible

Cost scale calibration

RIA / wealth management spend bands operate at small-business + technology + people-services scale:

Band	Spend type
1 — Under \$1,000	Cert exam, association membership, designation course
2 — \$1,000 to \$10,000	CRM upgrade, planning software, marketing platform
3 — \$10,000 to \$100,000	Portfolio management platform, advisor hire, niche specialty buildout
4 — \$100,000 to \$1M	Junior advisor hire, second office, book acquisition
5 — Over \$1M	Practice acquisition, multi-advisor expansion, M&A;

Persona schema

B2C_consumer (wealth-management client lens — long-term relationship)

- Client name + age + life stage + wealth level
- Decision driver (returns vs planning vs tax vs behavioral coaching)
- Acquisition channel (referral, niche search, content / SEO, COI / accountant)
- Service tier (planning + investment / investment-only / family office)
- Specialty fit (physician, business owner, tech exec, retiree, divorcee)
- LTV (AUM × fee × 15-25 yr typical retention × estate transfer to next gen)

Cycle / calendar model

Wealth management runs on tax + market + life-event cycles:

Window	Trigger	Action
Q1 (Jan-Apr)	Tax season + IRA contributions + Q1 reviews	Tax planning + contribution decisions + review meetings
Q2 (Apr-Jun)	Mid-year planning + tuition / college decisions	Mid-year reviews + life-event planning
Q3 (Jul-Sep)	Tax projection + Q3 reviews	Tax-loss harvesting + Roth conversion planning
Q4 (Oct-Dec)	Year-end tax + tax-loss harvest + RMDs + giving	Tax-loss harvest + RMD compliance + charitable giving
Annual: form ADV + state registration	SEC + state regulatory filing	Compliance review + ADV update + state notice filings
Quarterly: portfolio rebalance + reporting	Investment policy + tax efficiency	Rebalancing discipline + reporting

Window	Trigger	Action
Life-event triggers (marriage, divorce, inheritance, business sale, retirement)	Major planning shifts	Specialized service offerings + coordination

Issue library

- Fee-transparency vs commission competition — universal — frame as fiduciary positioning
- Performance vs benchmark in down markets — universal — frame as Vanguard Advisor's Alpha + behavioral coaching
- Robo-advisor + DIY (Vanguard, Fidelity Go, Betterment) competition — universal — frame as planning + tax + behavioral
- Communication frequency complaints — universal — frame as cadence + portal + automated touchpoints
- Retention through advisor-departure events — universal — frame as team-based service + non-compete
- Compliance burden vs growth — universal — frame as outsourced compliance (RIA in a Box, Cipperman, ACA)
- Succession planning anxiety — universal — frame as internal-succession or M&A; pathway
- Niche / specialization decision — universal — frame as concentration + premium positioning

Report sections

Section	Contents
Practice snapshot	AUM, revenue, household count, advisor count, named comp set
Top 5 growth + niche moves	Drawn from 15-category playbook
Niche specialization roadmap	Vertical opportunity + named specialty designations
Tech stack + service-tier roadmap	Named planning + portfolio + CRM platforms
Custodian + platform strategy	Named custodian + service tier
Marketing + content + COI strategy	Named platforms + COI partner targets
Succession + equity + practice value plan	Internal vs external succession economics
Known industry challenges	Collapsed drawer

KPIs to track

- AUM (\$) + organic growth %
- Revenue per household + per advisor
- Client retention 12-mo (target > 95%)
- Net new clients per year
- Advisor / staff ratio
- Profit margin (target > 30% mature practice)

- Compliance issue count (target zero)

Engineering guidance

Sector 52 is a Phase 3 priority. Build finance.insurance_agency first (most common, B2B-relationship + carrier-network logic translates from existing data). RIA / wealth (52.C) needs careful regulatory-content discipline — every recommendation must respect FINRA / SEC marketing rule. Community bank (52.A) is the smallest market but highest LTV per relationship and most regulated.

CHAPTER 53 — REAL ESTATE & RENTAL

Residential + commercial brokerages, property management firms, self-storage operators. Three different profiles tied together by a common substrate of property + leasing economics.

One-line truth

A residential agent's reputation lives on Zillow + their MLS, not Google reviews. A property management firm has 200 unit-tenants who hate them and 14 owners who love them — review sentiment is structurally negative. Self-storage operators compete on facility quality + ancillary fees in defined catchment radius. Three structurally different profiles inside one NAICS sector.

NAICS code count: 24 **Sub-clusters:** 3

realestate.brokerage — Real estate brokerages (residential agents/teams, commercial brokers)

Business model	B2C_relationship + B2B_relationship hybrid
NAICS examples	531210, 531120, 531190
Modern variants	Buyer-Only Brokerage, Flat-Fee Listing Brokerage, Luxury Specialty, Land + Farm Specialty
Competitor radius	Residential: 10 mi for high-volume agents (where they actively work). Luxury / specialty national. Commercial brokers regional 100+ mi. Brokerage firms compete by recruiter pool + agent count + brand within 25-50 mi MSA.

Data sources

Source	Returns	Cost	Fallback
Local MLS (Bright MLS, Stellar MLS, MLS PIN, ARMLS, etc.)	Listing + sold + DOM data	Member-only	Public Tax Records
NAR member directory	Named realtor peer competitors	Member-only	State assoc
Zillow Premier Agent + Realtor.com Pro	Lead-platform performance + reviews	Subscription	Direct
Homes.com + Redfin Partner Agent + Houzeo	Alt platform performance	Subscription / free	Direct
CoStar + LoopNet + Crexi (commercial)	Commercial listings + comps + tenant intel	Subscription	Reonomy
BrokerMetrics / RealTrends	Production rankings + benchmarks	Subscription	Public summary

Source	Returns	Cost	Fallback
County tax assessor + recorder	Sale + ownership data	Free public	Direct
Local builder + developer directory	Named referral + listing pipeline	Free / member	Chamber

Review categories tracked

- Negotiation skill / outcome
- Market knowledge depth
- Communication frequency + responsiveness
- Marketing quality (photos, copy, syndication)
- Pricing strategy accuracy
- Offer-management discipline
- Closing-process management
- Local-area referral network

Opportunity playbook (15 categories)

Category	Research basis	Example with named entity
Niche + specialty positioning (luxury, ranch, military, divorce, downsizer)	Named designations + niche success	Certified Luxury Home Marketing Specialist (CLHMS — Institute for Luxury Home Marketing) + branded as luxury specialist — captures premium \$/closing + 28% higher commission tier
Buyer-broker agreement + transparent buyer-side service	NAR settlement + buyer agency changes (Aug 2024)	Branded buyer-side service + transparent fee schedule — captures market segment unsettled by NAR changes + builds trust with buyer prospects
Team / partnership leverage model	Team economics + lead conversion + showing assistant model	Lead agent + 2 buyer agents + listing coordinator + transaction coordinator — production scales from 30 to 90 transactions/yr at 60% direct margin to lead agent
Lead-platform investment + ROI discipline	Named platforms (Zillow PA, Realtor.com Pro, Ojo, Homes.com)	Zillow Premier Agent ZIP buy (\$800-\$3,500/mo per ZIP) — properly converted (5% lead-to-close) generates 4-6 transactions/yr at \$14k commission = \$56-84k revenue at \$30k cost
Database / past-client / SOI program	Named database systems + SOI conversion benchmark	Sphere of influence (SOI) marketing — 200-person database — generates 8-12 referral transactions/yr (highest-ROI lead source) at \$0 marketing cost
Geographic farm marketing program	Named farm-marketing tactics + ROI	600-home geographic farm + monthly mailer + 4× door-knock — generates 2% market share = 8-12 listings/yr from neighborhood

Category	Research basis	Example with named entity
CRM + lead-conversion system	Named CRMs (Follow Up Boss, kvCORE, BoomTown, Sierra Interactive, LionDesk, Top Producer)	Follow Up Boss + Mojo dialer + Buffini CRM — lead-to-appointment from 8% to 22% via systematic follow-up
Listing presentation + marketing materials upgrade	Named print + digital listing tools	Professional photographer + drone + virtual tour + 3D Matterport — listings sell 12% faster + 4% higher price = 28% more total commission per listing
Open house + buyer-funnel system	Open house lead-capture + nurture	Sat-Sun open house program with 4 reps + Curaytor follow-up — captures 2-3 buyers per open house at 35% conversion
Referral / COI program (lender, attorney, builder)	Named COI partners + referral economics	Named lender (cross-referral RESPA-compliant) + closing attorney + builder partnerships — drives 14% of transactions from COI without paid lead spend
Commercial / land specialty add-on	CCIM + SIOR + Land Brokers Network	CCIM (Certified Commercial Investment Member) designation — captures commercial transactions \$50k-300k commission tickets — 6× residential commission
Agent recruiting (for brokerage owner)	Cap models + revenue share + commission split benchmarks	KW / RE/MAX cap-model recruiting OR eXp Realty revenue-share — recruits 4 producing agents/yr — adds \$80k-200k brokerage revenue
Property management + investment-property line	PM revenue + cross-sell to brokerage clients	PM division — captures 8% management fee on investor clients + builds 5-10 yr LTV vs single-transaction
Social media + video content (IG, TikTok, YouTube)	Named real estate creator economics + tools	YouTube channel with weekly market update + IG reels — drives 4-8 inquiries/mo at \$0 ad spend after 12 mo investment
Designation stacking (ABR, SRES, GRI, e-PRO, RENE, CRS)	Named NAR designations + value	ABR + SRES (seniors) + GRI — stacks credibility + drives premium close rate

Specificity rules (anti-hallucination)

- Every named platform must be real (Zillow, Realtor.com, Redfin, Homes.com, Ojo, Houzeo)
- Every named CRM must be real (kvCORE, Follow Up Boss, BoomTown, Sierra Interactive, LionDesk, Top Producer, Wise Agent, Realvolve)
- Every named designation must be real (NAR-affiliated: CRS, ABR, SRES, GRI, e-PRO, RENE, ALC, AHWD; non-NAR: CCIM, SIOR, CIPS, CLHMS)
- Every named MLS must be currently operating (Bright MLS, Stellar MLS, MLS PIN, ARMLS, Triangle MLS, NTREIS, Crmls, etc.)

- Every benchmark must come from real source (NAR, T3 Sixty, RealTrends, Inman, Real Estate Almanac, Stratus Data)

Cost scale calibration

Brokerage spend bands operate at agent-business + brokerage scale:

Band	Spend type
1 — Under \$500	Designation course, MLS membership, networking event
2 — \$500 to \$5,000	CRM, photographer, drone, marketing template, lead-capture site
3 — \$5,000 to \$50,000	Lead-platform investment, team-build (transaction coord, BA), branding, geographic farm
4 — \$50,000 to \$500,000	Team buildout (5+ agents), brokerage acquisition, multi-channel marketing
5 — Over \$500,000	Brokerage expansion, multi-office, M&A; acquisition

Persona schema

B2C_consumer (buyer + seller + investor lenses)

- Client type (first-time buyer, move-up buyer, downsizer, luxury seller, investor)
- Decision driver (price vs speed vs negotiation vs market knowledge)
- Acquisition channel (Zillow, Realtor.com, sphere, geographic farm, COI referral)
- Repeat / referral propensity
- Lifetime real estate transaction count (typically 4-8 over lifetime)
- LTV (commission × transactions × 30-yr lifetime + referrals × 5)

Cycle / calendar model

Real estate brokerage runs on seasonal + interest-rate + spring-market cycles:

Window	Trigger	Action
Spring market (Mar-May)	Highest-volume buying + listing season	Maximum capacity + lead-platform spend + open house program
Summer (Jun-Aug)	Family relocation + late-spring closes	Capacity discipline + relocation network
Fall (Sep-Oct)	Second-strongest market + back-to-school transitions	Closes + Q4 pipeline ramp
Holiday slowdown (Nov-Jan)	Slow market + planning	Database / SOI marketing + business planning + Buffini Mastermind
Tax season (Jan-Apr)	Tax-refund downpayment surge	First-time-buyer marketing campaign
Annual: real estate license + CE + designation renewal	State + NAR + designation requirements	CE compliance + designation refresh

Window	Trigger	Action
Quarterly: market-data publication + community presence	Stay top-of-mind via market update	Quarterly market report + email cadence

Issue library

- Lead-platform ROI failure — universal — frame as conversion discipline + nurture systems
- Commission compression / fee-transparency pressure — universal — frame as value articulation + niche premium
- NAR settlement + buyer-agency changes — universal — frame as transparent buyer service + agreement
- Slow communication during transaction — universal — frame as transaction-coordinator role
- Listing photos / marketing inadequate — universal — frame as professional photo + listing presentation kit
- Pricing strategy disagreement with seller — universal — frame as data-driven CMA + objection handling
- Agent retention (brokerage perspective) — universal — frame as recruiting + culture + agent value-add
- Database neglect / no past-client outreach — universal — frame as automated CRM + monthly touch

Report sections

Section	Contents
Brokerage / agent snapshot	Annual transactions + GCI, market share, named comp set
Top 5 growth + production moves	Drawn from 15-category playbook
Lead-channel mix optimization	Platform + farm + SOI + COI ROI by channel
Niche specialization roadmap	Designation + branding + premium positioning
Database + SOI + past-client program	Named CRM + nurture cadence
Customer personas (4 + lost lead)	Buyer / seller / investor / repeat
Annual cycle plan	Seasonal + market-cycle calendar
Known industry challenges	Collapsed drawer

KPIs to track

- Annual transactions + GCI (gross commission income)
- Avg commission per transaction
- Lead-source CAC by channel
- Conversion rate from lead → appt → close
- Past-client / SOI transaction % (target > 35%)
- Listings sold % (target > 95%)
- Avg DOM vs market avg

realestate.property_management — Property management (residential, commercial, multifamily, vacation rental)

Business model	B2B_relationship
NAICS examples	531311, 531312, 531320, 531390
Modern variants	Vacation Rental Manager (Airbnb-focused), Single-Family Rental (SFR) Operator, Commercial PM Specialist
Competitor radius	15-25 mi for residential PM (driving distance for inspections + emergency). Commercial PM regional 50+ mi. Vacation rental manager defined by destination geography. National PM operators like Roofstock, Mynd, Greystar operate without radius.

Data sources

Source	Returns	Cost	Fallback
NARPM (National Assn of Residential PM)	Named peer competitors + industry benchmarks	Member-only	Public summary
IREM (Institute of Real Estate Management)	Named commercial PM peers + designations	Member-only	Public
BOMA (Building Owners + Mgrs Assn)	Commercial property benchmarks	Member-only	Public
Apartment List + Apartments.com + Zillow Rental Manager	Listing market intelligence	Subscription / public	Direct
Local Yelp + Google Reviews	Tenant + owner sentiment	\$0.02	Direct
HUD + state/local housing authorities	Section 8 + voucher programs	Free	Direct
CoStar + Reonomy (commercial)	Commercial market intelligence	Subscription	LoopNet
Named PM software (AppFolio, Yardi, Buildium, RentManager, etc.)	Internal + benchmark data	Subscription	Direct

Review categories tracked

- Tenant experience (response speed, repair quality)
- Owner experience (reporting, transparency, communication)
- Maintenance vendor management
- Vacancy fill speed + days-on-market
- Rent collection effectiveness
- Eviction handling (sensitive)

- Fee transparency (PM + leasing + maintenance)
- Technology / portal capability

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
PM software platform upgrade	Named platforms (AppFolio, Yardi Breeze + Voyager, Buildium, RentManager, Propertyware, DoorLoop)	AppFolio (\$1.40/unit/mo) — captures 22% productivity vs Excel + Quickbooks operations + tenant + owner portals lift retention
Owner-acquisition / portfolio growth campaign	Named PM marketing tactics + named owner prospect channels	"4 ways to switch property managers" landing page + Google Ads + investor REIA networking — captures 4-8 new owners/mo at \$480 CAC
Niche specialty (vacation rental, student, military, Section 8, multifamily)	Named niche PM operators + their economics	Vacation rental management — premium 25-35% mgmt fee vs 8-10% standard + ancillary cleaning revenue + named OTA distribution
Maintenance department / in-house tech build	In-house vs outsource maintenance economics	2-tech in-house maintenance team — saves 28% vs outsource + drives owner satisfaction + recurring billable rate
Eviction / collection process optimization	Named eviction prevention + collection partners	Named legal partner + structured eviction prevention process + payment plans — drops bad-debt write-offs by 60%
Tenant screening + ResidentVerify / TransUnion / Experian	Named screening platforms + criteria	TransUnion SmartMove + AppFolio screening — drops bad-tenant placement 80% — saves \$2,400 per avoided eviction
Tenant + ancillary revenue program	Named ancillary revenue (resident benefits package, pet, parking, package, RUBS)	\$45/mo Resident Benefits Package + pet program + RUBS utilities — adds \$48/unit/mo = \$58k/yr on 100-unit portfolio
Owner reporting / portal modernization	Named owner-portal + statement features	AppFolio owner portal + monthly automated reporting — owner retention 84% → 94% — eliminates 60% of phone-call status requests
Fee structure optimization (mgmt + leasing + lease-renewal + reserves)	Named fee structures by market	Tiered fee structure: 8% mgmt + 1× rent leasing + 1/2× rent renewal + \$250 lease admin — captures 22% more revenue per door than flat 8% fee
IREM CPM + ARM + ACoM designations	IREM designation programs + market value	CPM (Certified Property Manager) — captures premium commercial + multifamily owner accounts + drives team credibility

Category	Research basis	Example with named entity
Commercial / multifamily expansion line	Named commercial PM economics + BOMA networking	Commercial PM division — \$0.40-0.80/sqft/yr management fee × 200k sqft = \$80-160k/yr revenue per property
Vendor + maintenance pricing optimization	Named vendor management platforms (Latchel, Property Meld, Building Engines)	Property Meld vendor management — drops avg work-order cost 18% + improves response time SLA
Build-to-rent / SFR portfolio growth	Named SFR institutional + named PM partners	BTR partnership with named developer — captures 200-unit BTR portfolio at scale-friendly fee schedule
NARPM / IREM thought leadership + speaker	Named events + speaker visibility	NARPM annual convention speaker + monthly podcast — drives 14% of new owner pipeline from industry credibility

Specificity rules (anti-hallucination)

- Every named platform must be real (AppFolio, Yardi Breeze + Voyager, Buildium, RentManager, Propertyware, DoorLoop, TenantCloud, Innago, Hemlane)
- Every named association must be real (NARPM, IREM, BOMA, NMHC, NAA)
- Every named designation must be real (CPM, ARM, ACoM, MPM, RMP from NARPM, RPA from BOMI)
- Every named screening platform must be real (TransUnion SmartMove, RentSpree, AppFolio Screening, Findigs, Plaid)
- Every named maintenance tool must be real (Latchel, Property Meld, Lessen, Building Engines, MRI Vendor, Propertyware Maintenance)

Cost scale calibration

Property management spend bands operate at small-business + per-door scale:

Band	Spend type
1 — Under \$500	Cert course, association membership, marketing template
2 — \$500 to \$5,000	PM software, screening platform, signage, owner-marketing campaign
3 — \$5,000 to \$50,000	In-house tech hire, maintenance vehicle, software upgrade
4 — \$50,000 to \$500,000	Maintenance department buildout, second office, portfolio acquisition
5 — Over \$500,000	PM acquisition, BTR partnership infrastructure, multi-market expansion

Persona schema

B2B (owner) + B2C (tenant) hybrid

- Owner type (single-property mom-and-pop / portfolio investor / institutional / family office)
- Owner decision driver (mgmt fee % vs returns vs transparency vs hands-off)
- Tenant demographic + price segment
- Property type + maintenance demand profile

- Acquisition channel (referral, REIA, Google, broker, sale + manage-back)
- LTV (units × mgmt fee × ancillary × 5-15 yr retention)

Cycle / calendar model

Property management runs on lease + season + market-rent cycles:

Window	Trigger	Action
Spring leasing season (Mar-May)	Highest tenant turnover	Vacancy management + leasing capacity max
Summer (Jun-Aug)	Family-mover season + maintenance backlog	Inspection + maintenance season
Fall (Sep-Oct)	Renewal + lease-decisioning season	Renewal campaign + market-rent analysis
Winter (Nov-Feb)	Slow leasing + planning + capex	Year-end reporting + tax + capex planning
Quarterly: market-rent review	Rent-pricing discipline	Rent comp study + adjustment recommendations
Monthly: financial reporting + owner statements	Owner trust + retention	Statement timing + accuracy discipline
Annual: lease renewal cycle	Rolling 12-mo cycle	Renewal automation + market-adjusted pricing

Issue library

- Slow tenant-maintenance response — universal — frame as Latchel + 24-hr SLA
- Owner reporting opacity / statement complaints — universal — frame as automated portal + monthly cadence
- Eviction handling reputation risk — universal — frame as legal partner + payment-plan first
- Vacancy time vs market average — universal — frame as marketing + pricing discipline
- Maintenance vendor cost creep — universal — frame as Property Meld + competitive bidding
- Tenant screening errors — universal — frame as TransUnion + co-signer + criteria
- Owner churn / portfolio growth balance — universal — frame as owner-marketing engine

Report sections

Section	Contents
PM operation snapshot	Doors managed, mgmt fee average, owner count, named comp set

Known industry challenges	Collapsed drawer

KPIs to track

- Doors under management + monthly growth
- Avg mgmt fee % per door
- Owner retention 12-mo (target > 90%)
- Tenant retention / renewal rate
- Avg vacancy days (target < 30)
- Bad-debt write-off % of rent (target < 1%)
- Owner NPS
- Maintenance work-order resolution time

realestate.self_storage — Self-storage facility operators

Business model	B2C_walk_in + B2C_online hybrid
NAICS examples	531130
Competitor radius	3 mi urban, 5 mi suburban, 10 mi rural — self-storage customers don't drive past closer facilities. Catchment is rigid by drive-time. Climate-controlled premium can extend radius to 7-10 mi.

Data sources

Source	Returns	Cost	Fallback
Self Storage Association (SSA)	Industry benchmarks + named peers	Member-only	Public summary
SpareFoot + StorageCafe + Storable Marketplace	Lead-platform performance + market pricing	Subscription	Direct
Yardi RentCafe + Inside Self Storage	Industry data + benchmarks	Subscription	Public
Local zoning + planning records	New-supply pipeline + saturation analysis	Free	Direct
Census + driving-distance demographic data	Catchment population + housing turnover	Free	Direct

Source	Returns	Cost	Fallback
Named storage software (storEDGE, SiteLink, Storable, Easy Storage Solutions)	Internal benchmarks	Subscription	Internal
Google Reviews + Yelp	Customer sentiment	\$0.02	Yelp Fusion
Radius + ISS World benchmarks	Pricing + occupancy benchmark	Subscription	Public summary

Review categories tracked

- Cleanliness + facility condition
- Security (cameras, gate, lighting)
- Pricing transparency + rate-increase frequency
- Onsite manager friendliness
- Access hours + drive-up vs interior
- Climate control consistency
- Move-in / move-out process
- Online rental experience

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
Revenue management / dynamic pricing	Named revenue management software (storEDGE Insights, Storable PriceFynder, Yardi SmartView)	storEDGE Insights revenue management — \$300/site/mo — drives 8-12% revenue lift through dynamic pricing + ECRI optimization
Tenant insurance / protection plan	Named tenant insurance partners (SBOA, Tenant Insurance, Storable Protect, MiniCo)	SBOA tenant insurance partner — \$12-30/mo per tenant insurance × 60% attach rate — adds \$48k/yr at 60% margin per 200-unit facility
Online rental + autopay enrollment	Named online platforms (storEDGE, SiteLink, Storable, easyStorage)	Storable online rental — captures 38% of new tenants after-hours + drives autopay enrollment to 92%
Lead-platform investment (SpareFoot, Storage Cafe, Google)	Named lead platforms + cost per move-in	SpareFoot premium listing + Google Local Service Ads — \$14-32 cost per move-in vs walk-in capture
Boat / RV / vehicle storage line	Named vehicle storage premium pricing	Outdoor vehicle storage 12×30 + 12×40 — premium \$/sqft vs traditional unit + low buildout cost on existing land

Category	Research basis	Example with named entity
Climate-controlled + premium-tier units	Climate-controlled rate premium + buildout cost	Climate-controlled premium tier — 28% rate premium + drives less rate sensitivity + better tenant profile
U-Haul / Penske / vehicle dealer affiliation	Named affiliations + cross-traffic economics	U-Haul dealer affiliation — captures move-in traffic + truck rental revenue + visibility
Existing-customer rate-increase program (ECRI)	ECRI cadence + churn impact	Quarterly ECRI of 5-8% on existing tenants — captures 14% revenue lift at 8% churn rate (acceptable)
Online reviews + reputation engine	Named platforms (Birdeye, Podium) + storage industry benchmarks	Birdeye SMS post-rental review — Google rating from 4.0 to 4.7 — drives 18% conversion lift on Maps + SpareFoot
Multi-facility platform / portfolio expansion	Self-storage REIT + acquisition multiples	Acquire single-facility competitor — typical 5.5-7.5% cap rate — combines mgmt + revenue management + scale
Truck rental / moving-supply ancillary	Box + truck + supply margin	Onsite truck rental + boxes + locks + tape — adds \$14k/yr at 50% margin from existing customer base
Wine + cigar storage specialty	Specialty storage premium + named peer operators	Wine storage premium tier — climate-controlled + 55-degree + secure access — 4× rate premium
Solar + EV charger ancillary investment	Solar economics + EV demand	Solar + ChargePoint EV charger station — adds revenue + reduces utility cost + green-friendly positioning
Facility security + cameras + access control	Named security platforms (PTI Security, Janus, Doorking, Nok■ Smart Entry)	Nok■ Smart Entry Bluetooth lock — eliminates manager-distributed key issues + Bluetooth access drives premium positioning

Specificity rules (anti-hallucination)

- Every named platform must be real (storEDGE, SiteLink, Storable + Easy Storage Solutions, U-Haul WebSelfStorage, Centershift, syrasoft)
- Every named lead platform must be real (SpareFoot, StorageCafe, Storage Front, Storable Marketplace, Inside Self Storage Locator)
- Every named insurance partner must be real (SBOA, Tenant Insurance LLC, MiniCo, Bader, Storable Protect)
- Every named association must be real (SSA + state SSA chapters, ISS World)
- Every benchmark must come from real source (Inside Self Storage, MJ Partners, Cushman + Wakefield Self Storage, Marcus + Millichap)

Cost scale calibration

Self-storage facility spend bands operate at facility + per-door scale:

Band	Spend type
1 — Under \$500	Cert course, association membership, marketing template
2 — \$500 to \$5,000	Software upgrade, signage, paint refresh, lighting
3 — \$5,000 to \$50,000	Security upgrade, climate-control retrofit, paving + striping
4 — \$50,000 to \$500,000	New unit-block expansion, major renovation, new buildings
5 — Over \$500,000	Facility acquisition, ground-up new facility, multi-site portfolio

Persona schema

B2C_consumer (residential + small-business)

- Customer type (residential mover, residential overflow, small-business, vehicle storage, life-event)
- Decision driver (price vs proximity vs security vs hours)
- Acquisition channel (Google Maps, drive-by, SpareFoot, referral, U-Haul handoff)
- Tenancy length expectation (3-mo move vs multi-year)
- LTV (months × rent × ancillary attach × renewal × ECRI compounding)

Cycle / calendar model

Self-storage runs on moving-season + life-event cycles:

Window	Trigger	Action
Spring + summer moving season (Apr-Aug)	Highest move-in volume	Capacity discipline + max occupancy + rate firm
Fall (Sep-Oct)	College + graduate move-in/out	Student-storage capture + dorm/apartment overflow
Winter (Nov-Feb)	Slowest period	ECRI campaigns + facility maintenance + capex planning
Storm season (region-specific)	Hurricane / flood emergency demand	Capacity for displacement + pricing fairness
Life-event triggers (death, divorce, downsize, estate)	Continuous baseline demand	Compassionate + flexible service
Quarterly: ECRI cycle	Existing-tenant rate adjustment	Quarterly notice cadence + churn monitoring
Annual: facility condition + curb appeal review	Maintain facility-condition KPI	Paint + paving + landscaping + lighting refresh

Issue library

- Surprise rate increase (ECRI) complaints — universal — frame as transparent annual schedule
- Move-out hassle — universal — frame as digital move-out + grace period

- Pest / cleanliness — universal — frame as quarterly inspection + pest control contract
- Security incident response — universal — frame as camera + access logs + tenant insurance
- Climate-control failure — universal — frame as monitoring + redundancy + tenant communication
- Online rental tech failure — universal — frame as platform discipline + onsite-fallback
- Manager turnover impact on customers — universal — frame as documented procedures + training

Report sections

Section	Contents
Facility snapshot	Units, sq ft, occupancy %, rate, named comp set
Top 5 revenue + ops moves	Drawn from 14-category playbook
Revenue management + ECRI plan	Named software + cadence + churn-monitoring
Ancillary revenue program	Insurance + truck + supply + boat / RV
Lead-channel mix optimization	SpareFoot + Google + drive-by + referral
Customer personas (4 + lost prospect)	Residential mover / overflow / business / vehicle
Annual cycle + ECRI calendar	Move-in season + ECRI + capex schedule
Known industry challenges	Collapsed drawer

KPIs to track

- Occupancy % (target > 90% mature facility)
- Avg rate per sq ft (vs market)
- Rev per available sq ft (RevPASF)
- Tenant insurance attach rate (target > 60%)
- Avg tenant tenancy length (target > 12 mo)
- Online rental % of move-ins (target > 35%)
- Operating margin (target > 65%)

Engineering guidance

Sector 53 splits into 3 distinct profiles. Build realestate.brokerage first (Phase 3, biggest market + most digital). Property management (53.B) is Phase 3 (B2B-relationship + tenant-experience hybrid). Self storage (53.C) is Phase 3-4 specialty (operates more like hospitality + retail than other real estate sub-clusters).

CHAPTER 54 — PROFESSIONAL, SCIENTIFIC & TECHNICAL SERVICES

Law firms, accounting firms, A&E; firms, consulting firms, vet clinics. The Phase 3 priority — every sub-cluster is regulated by some board, runs on referral pipelines, and requires substantive trust signals beyond Yelp reviews.

One-line truth

A law firm cannot run a "share us on Facebook for \$50 off" promo because state bar rules forbid it. An accounting firm picks clients based on industry-specialty + AICPA designations + named referral partners, not Google reviews. A vet clinic is closer to healthcare.medical_practice than it is to a law firm. Five distinct profiles inside one NAICS sector.

NAICS code count: 47 Sub-clusters: 5

professional.legal — Law firms (solo, boutique, mid-sized; civil, criminal, family, business, IP, immigration)

Business model	B2B_relationship + B2C_episodic hybrid
NAICS examples	541110, 541191
Modern variants	Subscription Legal (SLF), Virtual-Only Firm, Contract-Lawyer Network
Competitor radius	Local civil / family / criminal: 25 mi. Boutique business / IP / immigration: regional 100+ mi. Specialty federal / appellate: national. Personal injury operates locally with regional referral networks.

Data sources

Source	Returns	Cost	Fallback
State bar member directory + ABA	Named peer competitors + practice area	Free public	Direct
Avvo + Martindale-Hubbell + Super Lawyers + Justia	Online attorney directories + reviews	Free / sub	Direct

PACER + state court records	Court filings + case-history intel	Sub / public	Direct
Lex Machina + Casetext + Bloomberg Law	Litigation analytics + benchmarks	Subscription	Westlaw
Clio Legal Trends Report	Practice management benchmarks	Free	Direct

Source	Returns	Cost	Fallback
State bar ethics opinions + advertising rules	Marketing compliance constraints	Free public	Direct

Review categories tracked

- Case outcome / result
- Communication frequency + responsiveness
- Billing transparency + scope discipline
- Strategic counsel quality
- Trust + confidentiality
- Empathy / treating client as person
- Speed of work
- Legal-strategy explanation clarity

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
Practice management software upgrade	Named platforms (Clio, MyCase, PracticePanther, Smokeball, Rocket Matter, CosmoLex, Filevine)	Clio Manage + Grow (\$89/seat/mo) + IOLTA-compliant trust accounting — captures 18% productivity + drops billable-hour leakage
Niche / specialty practice positioning	Named legal directories + niche ranking	Estate-planning niche + WealthCounsel / ElderCounsel affinity — premium \$/case + repeat referral pipeline
Subscription / fixed-fee model	SLF + named flat-fee firms	Subscription business-counsel — \$1,200/mo flat fee + 80 small-business clients = \$115k/yr recurring vs hourly billing
Online lead-generation discipline (Avvo, Justia, FindLaw)	Lead-platform conversion benchmarks + state bar advertising rules	Avvo Pro + Justia Premium + FindLaw — \$1,800/mo investment generates 8-12 qualified intakes/mo at \$190 CAC
Referral source / COI program (CPA, financial advisor, broker, real estate)	Named referral channels + RPCs	Quarterly named-CPA + financial-advisor + business-broker lunch — drives 38% of new business at \$0 ad spend
Content + SEO + thought leadership engine	Named legal content platforms (FindLaw, Justia, Lexicata)	Practice-area blog + monthly Q&A; + speaking — drives organic to 4-6 inquiries/mo at \$0 ongoing cost after 18 mo

Category	Research basis	Example with named entity
Document automation + intake	Named platforms (Clio Grow, Lawmatics, Lexicata, Lawyaw, HotDocs, Documate)	Clio Grow + Lawmatics — captures 38% of intake after-hours + drops time-to-engagement 60%
AI / legal-tech adoption (Casetext CoCounsel, Harvey, Westlaw Edge)	Named legal AI platforms	Casetext CoCounsel (\$225/seat/mo) — drops research time 40% on common matters + improves brief quality
Designation + board-cert specialty	State Board Certifications + ACTEC + AAML	State Board Certified Family Law (only 1% hold) — premium positioning + speaker visibility + judge familiarity
Class-action + mass-tort referral pipeline	MDL panel + named referral networks	MDL referral fees from named class-action firms — captures fee participation without full litigation cost
Bar-association involvement + leadership	State + local bar leadership pathways	State bar section chair / committee leader — drives credibility + speaker invites + judicial relationships
Spanish + multilingual practice	Census + bilingual marketing	Bilingual Spanish + immigration / family-law specialty — captures growing community + premium \$/case
Practice acquisition / book of business	Retiring solo attorneys + ABA succession resources	Acquire retiring solo's book + 2-yr earn-out — adds \$300-500k/yr revenue at predictable margin
IOLTA + trust accounting discipline	State bar trust-account rules	3-way reconciliation + named IOLTA-compliant software — eliminates ethics complaint risk + bar audit pass

Specificity rules (anti-hallucination)

- Every named platform must be real (Clio, MyCase, PracticePanther, Smokeball, Rocket Matter, Filevine, NetDocuments, iManage)
- Every named legal-research / AI tool must be real (Westlaw, Lexis Advance, Bloomberg Law, Casetext, Harvey, Lex Machina)
- Every named directory must be real (Avvo, Martindale-Hubbell, Super Lawyers, Justia, FindLaw, LegalMatch, Lawyers.com)
- Every named CLE / designation must be real (NBI, PLI, ALI CLE, state board certifications, ACTEC, AAML, AAJ)
- Every recommendation must comply with state bar marketing rules (no false promises, mandated disclaimers)

Cost scale calibration

Law firm spend bands are small-business + per-attorney scale:

Band	Spend type
1 — Under \$500	Bar association, CLE course, directory profile
2 — \$500 to \$5,000	Practice mgmt software, marketing campaign, CLE specialty
3 — \$5,000 to \$50,000	AI tool, second attorney hire, niche specialty buildout
4 — \$50,000 to \$500,000	Multi-attorney expansion, second office, practice acquisition
5 — Over \$500,000	Practice acquisition, multi-office expansion, M&A;

Persona schema

B2B_buyer + B2C_episodic hybrid

- Client type (consumer episodic / business recurring / litigation / transactional)
- Decision driver (outcome, fee structure, relationship trust, named partner)
- Acquisition channel (referral, online directory, COI, repeat client)
- Engagement scale (one-off vs ongoing counsel)
- Repeat / referral propensity
- LTV (avg matter × matters × referral lifetime)

Cycle / calendar model

Legal practice runs on calendar + court + tax + life-event cycles:

Window	Trigger	Action
Q1 (Jan-Mar)	Tax + post-holiday family / divorce + new business formation	Tax + family + new-business intake max
Q2 (Apr-Jun)	Mid-year transactional + employment + business contract	Transactional + commercial work peak
Q3 (Jul-Sep)	Litigation activity + pre-trial	Trial calendar + litigation pipeline
Q4 (Oct-Dec)	Year-end estate + tax + business close-out	Estate + tax + holiday-rush family
Court calendar (rolling)	Trial dates + scheduling orders	Calendar discipline + capacity management
Annual: bar dues + CLE + license renewal	State bar + designation requirements	CLE + ethics compliance
Quarterly: A/R + WIP discipline	Cash flow + utilization	A/R discipline + matter review

Issue library

- Billing surprise / scope creep — universal — frame as engagement letter + budget + monthly review
- Communication delays — universal — frame as client portal + scheduled status
- Outcome expectation gap — universal — frame as managed-expectations + early case assessment
- Trust account compliance risk — universal — frame as 3-way reconciliation + named software

- Attorney departures with portable book — universal — frame as non-compete + culture + comp
- Marketing in heavily regulated environment — universal — frame as state bar rule compliance
- AI / legal-tech disruption — universal — frame as adoption strategy + value-articulation

Report sections

Review categories tracked

- Tax outcome accuracy + savings
- Communication frequency + responsiveness
- Pricing transparency (fixed-fee vs hourly)
- Industry-specialty knowledge
- Strategic / advisory value-add
- Software / portal experience
- Audit / IRS-defense quality
- Year-round availability vs seasonal-only

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
Practice management + workflow software	Named platforms (Karbon, Canopy, Jetpack Workflow, Pixie, Aero, Financial Cents, TaxDome)	Karbon (\$69/seat/mo) — workflow + email + portal — drops missed deadlines 80% + scales firm to 2× capacity
Niche industry vertical specialization	Named industry-specialty CPAs	Restaurant + hospitality CPA niche — premium \$/return + cross-sell into bookkeeping + advisory at 3× revenue per client
Client Accounting Services (CAS) line buildout	Named CAS platforms + economics	CAS line — \$800-2,400/mo per client × 60 clients = \$48-144k/mo recurring + 70% gross margin

Category	Research basis	Example with named entity
Virtual CFO / advisory line	Named platforms (Liscio, Bill.com, Float, Fathom)	vCFO \$4,800-12,000/mo × 8 clients = \$38-96k/mo recurring at 75% margin
Tax planning vs tax preparation positioning	Named tax-planning platforms (Holistiplan, Corvee, TaxAct Planner)	Tax planning service — \$2,400-12,000 per engagement vs \$800 average tax prep — captures higher-LTV clients
Software certification + partner status	Named partner programs (QuickBooks Elite ProAdvisor, Xero Platinum, NetSuite, Bill.com)	QuickBooks Elite + Xero Platinum + Bill.com — drives 14% close rate from software-aligned referrals + directory listings
Advisory designations (PFS, ABV, CITP, CGMA)	AICPA + named designation programs	AICPA PFS — premium positioning for HNW + business-owner advisory work
Fixed-fee model + value-pricing	Named pricing frameworks (Ron Baker pricing)	Move from hourly to value-pricing — average fee per return from \$480 to \$1,140 + drops realization-rate concerns
Outsourcing + offshore staffing partnership	Named offshore providers (Botkeeper, KMK, Hammerjack, Initor Global)	Botkeeper or named offshore CAS — drops bookkeeping cost 60% + frees CPA staff for advisory
Content + thought leadership engine	Named CPA marketing platforms (Canopy, Jetpack Marketing)	Industry blog + LinkedIn + monthly newsletter — 4-6 prospect inquiries/mo at \$0 ad spend after 12 mo
BD + COI program	Named COI partners (attorneys, financial advisors, bankers, business brokers)	Quarterly named COI lunch — drives 38% of new business at \$0 ad spend
Audit / assurance practice	AICPA peer review + audit market	Audit + assurance line — \$14k-50k/audit × 40 audits/yr = \$560k-2M revenue at 50% margin (high barrier)
IRS representation + EA designation	IRS EA exam + tax controversy practice	EA + tax controversy line — \$4,800 average resolution × 24 cases/yr = \$115k/yr at 80% margin
Practice acquisition + retirement-buyout	Named M&A; platforms (Accounting Practice Sales, Poe Group, Gable & Schlesinger)	Acquire retiring CPA's book at 1.0-1.4× revenue × 5-yr earn-out — adds \$400-800k revenue at known retention

Specificity rules (anti-hallucination)

- Every named platform must be real (Karbon, Canopy, Jetpack Workflow, Financial Cents, TaxDome, Liscio, ShareFile, SmartVault)

- Every named tax software must be real (UltraTax CS, Lacerte, Drake, ProSeries, ATX, ProConnect, CCH Axcess)
- Every named accounting platform must be real (QuickBooks Online + Desktop, Xero, NetSuite, Sage Intacct, FreshBooks, Zoho Books)
- Every named designation must be real (CPA, EA, PFS, ABV, CITP, CGMA, CMA, CFE)
- Every named association must be real (AICPA, state CPA society, NATP, NAEA)

Cost scale calibration

Accounting firm spend bands are small-business + per-CPA + tech scale:

Band	Spend type
1 — Under \$500	Designation course, association membership, partner status applications
2 — \$500 to \$5,000	Practice mgmt software, CPE specialty, marketing
3 — \$5,000 to \$50,000	Software stack upgrade, CAS / advisory practice buildout, hire
4 — \$50,000 to \$500,000	Multi-CPA expansion, niche practice acquisition, second office
5 — Over \$500,000	Practice acquisition, multi-office expansion, M&A;

Persona schema

B2B_buyer (small business + individual)

- Client type (individual seasonal / small business recurring / mid-market advisory / niche)
- Decision driver (price vs accuracy vs proactive advice vs industry knowledge)
- Acquisition channel (referral, COI, online directory, content, repeat)
- Engagement depth (tax-only vs tax + bookkeeping vs full advisory)
- Industry-specialty match
- LTV (annual fees × 8-15 yr typical retention × cross-sell)

Cycle / calendar model

Accounting firms run on tax + extension + financial-reporting cycles:

Window	Trigger	Action
Tax season (Jan 15 - Apr 15)	Maximum production	Capacity max + offshore + extension discipline
Post-busy season (Apr 16 - Jun)	Recovery + planning	Extension processing + advisory pivot + planning meetings
Mid-year (Jul-Sep)	Q3 + tax planning + business advisory	Quarterly planning + new-client onboarding
Q4 (Oct-Dec)	Year-end + tax planning + extensions due	Year-end planning + Oct 15 push + Dec strategy
Q1 audit / assurance season	Audit fieldwork	Audit team capacity discipline

Window	Trigger	Action
Annual: license + CPE + association	State board + AICPA requirements	CPE compliance discipline
Quarterly: A/R + WIP review	Cash flow + utilization	A/R discipline + practice metrics review

Issue library

- Tax-season burnout / staff turnover — universal — frame as workflow + offshore + bonus structure
- Hourly billing vs flat-fee disagreement — universal — frame as value-pricing transition
- Software / tech adoption lag — universal — frame as named tech roadmap
- Audit / IRS notice quality — universal — frame as documentation discipline
- Communication during tax season — universal — frame as portal + scheduled updates
- Niche / generalist tradeoff — universal — frame as specialization decision
- Succession planning + retirement — universal — frame as M&A; pathway + internal succession

Report sections

Section	Contents

Review categories tracked

- Design quality + creativity
- Schedule + budget reliability
- Construction-administration follow-through
- Communication + project management
- Specification accuracy
- Sustainability / specialty fit
- Stakeholder coordination
- Long-term client relationship

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
BIM / Revit / VDC capability + LOD discipline	AIA BIM standards + LOD framework	In-house BIM/VDC team + Revit standard + Bluebeam Studio — captures projects requiring LOD 350+ deliverables (federal, healthcare, big commercial)
Sustainability + LEED / WELL / Living Building	USGBC LEED AP + IWBI WELL AP + Living Building Challenge	3 LEED AP BD+C + 2 WELL AP staff — qualifies for sustainable + healthcare projects, premium \$/ft ² fee
Niche / vertical specialty (healthcare, education, multifamily, industrial)	Named vertical-specific accreditations + portfolio	Healthcare-specialty practice + AAH membership + ICRA training — captures medical-facility design at 22% premium fee
Project mgmt software + accounting	Named A/E; platforms (Deltek Vantagepoint + Vision, BST10, Unanet, BQE Core, Ajera)	Deltek Vantagepoint (\$85k all-in for 50-person firm) — captures 18% productivity + better project + utilization data
Marketing + BD + SMPS membership	AEC marketing benchmarks + named consultants	SMPS + dedicated BD hire (\$95k) + branded RFQ template — wins 22% more invited proposals
Industry awards (AIA Honor, AIA COTE, ENR Best Project, ASCE OPAL)	Named award programs + submission cycles	AIA local + state + national award submissions — drives 8% premium fee + speaker invitations + recruiting
Architecture + engineering integration (multi-discipline)	Multi-discipline firm economics + JV partners	Add structural + MEP engineering in-house — captures 18% larger fee per project + improves coordination
Sole-source / preferred-vendor positioning	Named institutional clients (universities, healthcare systems, corporate facilities)	Sole-source agreement with named university or healthcare system — captures \$400-800k/yr predictable design work
Visualization + rendering + VR capability	Named tools (Enscape, Lumion, Twinmotion, V-Ray)	In-house viz studio — premium \$/proposal + drives owner approval + marketing reuse
Public + government RFQ pipeline	Federal + state + local procurement portals	GSA Schedule + state architect prequalification — qualifies for \$14M+ federal + state work annually
Specification mastery + named-product specs	Named tools (Deltek SpecLink-E, BSD SpecLink, Avitru MasterSpec)	BSD SpecLink + product specification mastery — drives owner trust + GC change-order reduction
Surveying + drone + LiDAR capability	Named drone + LiDAR partners + scan workflow	In-house drone (FAA Part 107) + LiDAR scanning — captures premium \$/scan + adds fee on existing survey work

Category	Research basis	Example with named entity
Existing-conditions + as-built + retrofitting	Named scanning + scan-to-BIM workflow	Faro / Leica scan-to-BIM workflow — captures premium retrofit + adaptive-reuse projects (growing market)
Multi-state licensure (NCARB, NCEES)	Named licensing + designation programs	Multi-state PE / RA licensure — qualifies for projects in named target states across radius

Specificity rules (anti-hallucination)

- Every named platform must be real (Deltek Vantagepoint + Vision + Ajera, BST10, Unanet, BQE Core)
- Every named CAD/BIM must be real (AutoCAD, Revit, ArchiCAD, MicroStation, Bluebeam, Bentley, Vectorworks)
- Every named cert must be real (LEED AP BD+C/ID+C/Homes/O+M, WELL AP, NCARB, NCEES, RA, PE)
- Every named association must be real (AIA, NCARB, NSPE, NCEES, ASCE, ASLA, USGBC, IWBI, SMPS)
- Every benchmark must come from real source (PSMJ, ZweigWhite, Deltek Architecture Index, ENR)

Cost scale calibration

A&E; firm spend bands are professional B2B + tech + people scale:

Band	Spend type
1 — Under \$1,000	Cert exam, association membership, designation course
2 — \$1,000 to \$10,000	Software upgrade, marketing template, awards submission
3 — \$10,000 to \$100,000	Project mgmt platform, specialty hire, BIM standardization
4 — \$100,000 to \$1M	Multi-discipline expansion, second office, BD hire + dedicated marketing
5 — Over \$1M	Practice acquisition, multi-office expansion, major capability build

Persona schema

B2B_buyer (developer / owner / contractor)

- Owner type (developer, corporate, institutional, government, individual HNW)
- Project type + delivery method (DBB, CMR, D-B, IPD)
- Decision driver (design quality, schedule, fee, signature reputation, expertise)
- Acquisition channel (RFP / RFQ, referral, repeat client, signature reputation)
- Repeat-client probability
- LTV (projects × fee × repeat over 10-25 yr typical client lifecycle)

Cycle / calendar model

A&E; firms run on capital-budget + project + season cycles:

Window	Trigger	Action
Capital budget season (Aug-Nov)	Owner finalizes next-year budgets	BD outreach + early-engagement pitches
Bidding season (Jan-Apr)	Most ground-up project starts	Estimating + project pursuit max
Construction season (May-Oct)	Field work + CA peak	CA capacity + project-management discipline
Awards season (Q1)	AIA + ENR + industry awards	Project doc + photo + entry prep
Annual: license + CE + AIA dues	State + designation requirements	CE + association renewal
Quarterly: utilization + WIP + A/R review	Practice metrics + financial discipline	Project metrics review
Multi-year: signature project lifecycle	Major projects 18-36 mo design + construction	Long-cycle BD discipline

Issue library

- Schedule / fee creep — universal — frame as scope discipline + change-order management
- Construction-administration burden vs fee — universal — frame as fee structure + named platforms
- BIM-coordination conflicts — universal — frame as VDC standards + clash-detection
- Specification quality — universal — frame as named-product specification mastery
- Marketing / BD investment vs project capacity — universal — frame as proposal pipeline + win-rate
- Talent recruiting + retention — universal — frame as compensation + ownership pathway
- Sustainability + WELL emerging requirements — universal — frame as designation + capability investment

Report sections

Section	Contents

- Communication frequency + responsiveness
- Strategic insight quality
- Project execution discipline
- Pricing transparency + value-delivery
- Industry-specialty fit
- Reporting / dashboard / portal quality
- Long-term partnership orientation

Opportunity playbook (15 categories)

Category	Research basis	Example with named entity
Niche industry vertical specialization	Named industry-specialty consultancies	SaaS-only marketing agency or healthcare-only MSP — premium \$/engagement + cross-vertical referral via specialization signal
Productized service / fixed-fee offering	Named productization frameworks + pricing	Productized "30-day audit + roadmap" at \$14k flat fee — captures larger client scale + drops sales-cycle time vs custom proposal
Named partner + tiered partnership status	Named partner programs + tier requirements	HubSpot Diamond Solutions Partner OR Google Premier Partner OR Salesforce Crest — captures co-marketing + lead-share + premium positioning
Recurring-revenue / retainer model	Retainer + MSP + recurring services economics	Marketing retainer \$14k/mo × 12 clients = \$168k/mo recurring vs project-based revenue + improves predictability
IT MSP: managed services + monitoring + cybersecurity	Named MSP platforms (ConnectWise Manage, Datto RMM, Kaseya, NinjaOne, Atera, Auvik)	ConnectWise + Datto SIRIS BCDR + Huntress EDR — drives 22% margin on \$250-400/seat/mo MSP managed services
Cybersecurity specialty + compliance niche	Named compliance frameworks (NIST CSF, SOC 2, HIPAA, CMMC, PCI-DSS)	CMMC Level 2 Certified Third Party Assessor (C3PAO) — captures defense-contractor compliance work at premium \$/engagement
Performance-based / pay-for-results pricing	Named performance-pricing structures	Performance fees on lead-gen / sales-recovery — drops client sales objection but requires careful scope + tracking

Category	Research basis	Example with named entity
Content + thought-leadership engine	Named content platforms + amplification	Weekly LinkedIn posts + monthly podcast + speaking — drives 4-6 qualified inquiries/mo at \$0 ad spend after 12 mo
Outbound + ABM (Account-Based Marketing)	Named outbound platforms (Outreach, SalesLoft, Apollo, Clay)	Apollo + Outreach + ABM campaign on 200 named-account prospects — drives 8-12 qualified meetings/mo at \$148 CAC
Awards + industry recognition	Named awards (Inc. 5000, Fast Company, Adweek, Drum, MSPmentor 501)	Inc. 5000 + industry-specific award — drives 18% close rate lift + recruiting + media inbound
Conference + speaking + workshop visibility	Named industry conferences + speaking pathways	Named conference speaker (HubSpot INBOUND, ConnectWise IT Nation) — drives 8-14 qualified inquiries/event
Strategic partnerships + co-marketing	Named complementary providers + co-marketing structure	Co-marketing with named non-competing agency / MSP — drives mutual lead-share at zero CAC
Acquisition / consolidation strategy	Named M&A; platforms (Barney Wealth, Murphy Group)	Acquire smaller agency / MSP at 4-6× EBITDA — adds \$400k-2M revenue at known retention + cross-sell
AI / automation in service delivery	Named AI tools (ChatGPT API, Claude, Jasper, Zapier AI)	AI-augmented service delivery + offshore VA — drops cost-to-deliver 35% + improves margin
Talent + offshore + nearshore staffing	Named offshore providers + nearshore Latin America	Nearshore (LatAm) developer + designer + analyst team — drops fully-loaded cost 40% vs domestic + same-timezone advantage

Specificity rules (anti-hallucination)

- Every named partner program must be real (HubSpot Solutions Partner with tier names, Google Premier / Partner, Meta Business Partner, Salesforce, Microsoft, AWS, Atlassian)
- Every named MSP platform must be real (ConnectWise Manage + Automate, Datto RMM + SIRIS, Kaseya VSA, NinjaOne, Atera, Auvik, Pax8)
- Every named compliance framework must be real (NIST CSF, NIST 800-171, SOC 2 Type 2, HIPAA, CMMC Level 1-3, PCI-DSS, ISO 27001, GDPR)
- Every named outbound tool must be real (Outreach, SalesLoft, Apollo.io, Clay, ZoomInfo, LinkedIn Sales Navigator)
- Every named association must be real (AMA, ANA, IAB, MSPAlliance, ASCII Group, ConnectWise IT Nation, SHRM, ATD)

Cost scale calibration

Consulting firm spend bands operate at small-to-mid B2B + tech-stack scale:

Band	Spend type
1 — Under \$1,000	Partner application, certification course, association membership
2 — \$1,000 to \$10,000	Outbound tool, content platform, awards submission, marketing
3 — \$10,000 to \$100,000	Niche specialization buildout, hire, certification stack, ABM campaign
4 — \$100,000 to \$1M	Multi-team expansion, second office, agency / MSP acquisition
5 — Over \$1M	Major acquisition, multi-market expansion, recurring-revenue scale

Persona schema

B2B_buyer (decision committee + economic buyer + champion)

- Buyer type (CMO / CFO / CTO / CEO depending on service)
- Decision driver (outcome, expertise, partner status, fee structure)
- Buying journey (RFP, referral, content + nurture, partner-channel referral)
- Engagement type (project vs retainer vs MSP managed)
- Industry-specialty match
- LTV (avg engagement × engagements × 3-7 yr typical retention × cross-sell + referrals)

Cycle / calendar model

Consulting firms run on calendar + budget + recurring + life-event cycles:

Window	Trigger	Action
Q1 (Jan-Mar)	New-year planning + budget approval	New-engagement starts + Q1 ramp
Q2 (Apr-Jun)	Mid-year + summer-prep campaigns	Project execution + retainer work
Q3 (Jul-Sep)	Federal FY-end + annual planning	Q3 close + Q4 budget pitches
Q4 (Oct-Dec)	Year-end + annual planning + budget approval	Renewal discussions + Q1 pipeline build
Quarterly: client QBR + recurring-revenue check-in	Retention + expansion	QBR discipline + expansion-opportunity surfacing
Annual: partner-program tier review + cert renewal	Named partner programs	Tier requirement + cert maintenance
Continuous: pipeline + outbound discipline	New-business engine	Outbound + content + referral cadence

Issue library

- Project / scope creep — universal — frame as upfront SOW + change-order discipline
- Recurring revenue mix vs project — universal — frame as productized + retainer transition

- Named partner program tier maintenance — universal — frame as production + cert discipline
- Outbound + lead-gen cost inflation — universal — frame as content + ABM diversification
- Talent + delivery capacity — universal — frame as offshore + nearshore + AI augmentation
- Pricing pressure + commoditization — universal — frame as specialization + value pricing
- Founder-dependence + scale — universal — frame as productization + delivery team build

Report sections

Review categories tracked

- Doctor compassion + bedside manner
- Pet-handling + fear-free experience
- Pricing transparency
- Wait time vs appointment
- Communication during care + after
- Cleanliness + safety
- Specialty / advanced-care availability
- Emergency / urgent-care responsiveness

Opportunity playbook (14 categories)

Category	Research basis	Example with named entity
AAHA accreditation	AAHA accreditation requirements + benchmarks	AAHA accredited (only 12% of US clinics) — premium positioning + drives 14% premium \$/visit + client trust

Category	Research basis	Example with named entity
Fear Free certification + training	Fear Free Pets certification + training	Fear Free Certified Practice — captures client segment that won't use rough-handling clinics + drives premium \$/visit
PIMS upgrade	Named platforms (AVImark, Cornerstone, ezyVet, Provet Cloud, Pulse, Shepherd, Vetspire)	ezyVet (\$300-1,200/mo) cloud PIMS — captures 18% productivity + automated reminders drive recall
Wellness plan / preventive care subscription	Named wellness plan structures (Banfield-style + custom)	\$45-65/mo wellness plan × 240 pets = \$11-16k/mo recurring + 4× annual visit attach + 92% retention
Specialty / advanced services (dentistry, ultrasound, endoscopy)	Named specialty equipment + training	In-house dental + iM3 dental unit + digital dental X-ray — captures premium \$/visit and refers to specialty \$200k/yr revenue line
Pet-insurance partnership + acceptance	Named pet insurers (Trupanion, Healthy Paws, Embrace, Nationwide, Pets Best, Spot)	Trupanion direct-pay partnership — at-checkout claim processing — captures clients + drives advanced-care acceptance + retention
Online booking + client portal	Named portals (PetDesk, AllyDVM, ezyVet portal)	PetDesk online booking + reminders — captures 28% of bookings after-hours + drops no-show rate from 18% to 6%
Reputation management + review velocity	Named platforms (Birdeye, PetDesk, Solutionreach for vet)	PetDesk SMS post-visit review — Google rating 4.0 → 4.7 in 6 mo + 4× monthly review velocity
In-house pharmacy + nutrition retail	In-clinic vs Chewy / 1800PetMeds margin	In-house pharmacy + Hill's / Royal Canin / Purina prescription diet retail — adds \$14k/mo at 35% margin per FTE vet
Boarding / grooming / day-care add-on	Adjacent service economics + zoning	In-clinic boarding + day-care — adds \$8k-24k/mo at 50% margin + drives client loyalty
Emergency / after-hours capacity	Named referral hospitals + after-hours model	Extended-hours / Saturday clinic — captures emergency revenue otherwise lost to ER + builds new-client funnel
Niche specialty (avian, exotic, behavior, oncology)	Named specialty boards + market demand	AAFP cat-only or avian-exotic specialty — captures 30+ mi referral radius + premium \$/visit

Category	Research basis	Example with named entity
Multi-vet group practice + ownership succession	Named consolidator buyers (Mars, NVA, BluePearl, AmeriVet, Innovetive Petcare) + valuation	Group-practice acquisition / sale at 12-18× EBITDA — major retirement event opportunity for owners
Telehealth + virtual-care line	Named telehealth platforms (Airvet, Vetster, Whisker Docs)	Airvet partnership for telehealth follow-ups — captures 14% of follow-up visits at \$0 facility cost

Specificity rules (anti-hallucination)

- Every named PIMS must be real (AVImark, Cornerstone, ezyVet, Provet Cloud, Pulse Veterinary, Shepherd, Vetspire, IDEXX Cornerstone)
- Every named distributor must be real (MWI Animal Health, Patterson Veterinary, Henry Schein Animal Health, Covetrus, Midwest Veterinary)
- Every named cert must be real (AAHA, Fear Free Certified Practice + Professional, Cat Friendly Practice, AAFP)
- Every named insurer must be real (Trupanion, Healthy Paws, Embrace, Nationwide, Pets Best, Spot, ASPCA, MetLife)
- Every named consolidator must be real (Mars Veterinary Health, NVA, BluePearl, AmeriVet, Innovetive Petcare, Pathway Vet Alliance, Galaxy Vets)

Cost scale calibration

Veterinary practice spend bands operate at small-business + medical-equipment scale:

Band	Spend type
1 — Under \$500	Cert application, partnership outreach, training session
2 — \$500 to \$5,000	Software upgrade, signage, marketing, comfort items
3 — \$5,000 to \$50,000	New equipment line, dental unit, training course
4 — \$50,000 to \$500,000	Imaging equipment (ultrasound, digital X-ray), op rebuild, vet hire
5 — Over \$500,000	New facility, second location, full op rebuild

Persona schema

patient (pet-owner with patient-equivalent + decision-driver fields)

- Pet owner name + pet species + age + life stage
- Decision driver (cost vs quality vs proximity vs specialty)
- Insurance vs out-of-pocket payer
- Wellness plan / preventive vs acute-only
- Acquisition channel (Google, friend, breeder, rescue, walk-in)
- LTV (visits/yr × ATV × pet lifespan + multi-pet × referrals)

Persona example — Jennifer, 38, two-cat owner — premium-quality + Fear Free believer

Cats hate carrier + clinic. Spend trigger: Fear Free + AAHA accreditation + advance pheromone protocol. 5-star trigger: vet sat on floor with cat instead of grabbing. Insurance: Trupanion. Wellness plan: yes (\$65/mo × 2 pets = \$1,560/yr). LTV: \$1,560/yr × 12 yrs avg cat lifespan + dental cleaning \$480/yr + emergency = \$25k+ over pet lifetime. Refers 3-4 cat-owners over time.

Cycle / calendar model

Vet practice runs on wellness + season + life-stage cycles:

Window	Trigger	Action
Spring (Mar-May)	Allergy season + heartworm + tick + grooming	Tick + flea promo + heartworm campaign
Summer (Jun-Aug)	Travel + boarding + lost-pet season	Boarding capacity + travel-cert visits
Fall (Sep-Nov)	Annual exam + senior wellness	Wellness exam push + senior-pet campaign
Winter (Dec-Feb)	Lower volume + dentistry + planning	Dental month (Feb) + capacity planning
Lifecycle: puppy / kitten visits	Vaccine series + spay/neuter	Wellness plan enrollment + lifetime relationship
Lifecycle: senior care	Geriatric workup + chronic care mgmt	Senior-pet wellness program
Annual: AAHA + AVMA + state board	Accreditation + license renewal	Compliance discipline

Issue library

- Cost shock for emergency care — universal — frame as wellness plan + pet insurance
- Wait time for appointment — universal — frame as scheduling discipline + telehealth
- Communication during procedure — universal — frame as text-update + client portal
- Pet-handling stress for cats / fearful pets — universal — frame as Fear Free protocol
- Pricing surprise on procedures — universal — frame as upfront treatment plan + estimate
- Vet shortage / burnout — universal — frame as multi-vet hire + tech utilization
- Specialty referral coordination — universal — frame as named specialty hospitals + handoff

Report sections

Section	Contents
Practice snapshot	Vets, exam rooms, monthly visits, wellness plan members, named comp set

Section	Contents
Top 5 growth + retention moves	Drawn from 14-category playbook
Wellness plan + retention engine	Named structures + enrollment plan
Service-line expansion	Specialty + dentistry + imaging opportunity
Pet-owner personas (4 + lost client)	Wellness / acute / specialty / fearful
Reputation + comm strategy	Named platforms (Google, PetDesk, Yelp)
Annual cycle plan	Wellness + season + life-stage calendar
Known industry challenges	Collapsed drawer

KPIs to track

- Monthly visits + new-client count
- Avg transaction value (ATV)
- Wellness plan member count + retention
- Insurance acceptance % of clients
- Vet productivity (\$ per FTE vet)
- Patient retention 12-mo (target > 75%)
- Avg Google rating (target > 4.7)

Engineering guidance

Sector 54 splits into 5 distinct profiles. Build professional.consulting first (Phase 3, biggest market + most flexible). Veterinary (54.E) has the most overlap with healthcare.medical_practice — engineering team can largely reuse healthcare profile with vet-specific PIMS + AAHA + wellness plan substitutions. Legal + accounting have similar B2B-relationship + COI-driven structures and can share substrate. A&E; is most similar to construction.commercial_gc in delivery method + B2B-relationship pattern.
